Thread: [GDI control like Bootstrap's panels.](#)

SIM-2071734 - March 13, 2016, 6:47 am

Hello I need a GDI control like the bootstrap panel element. I know it exist because I used it a long time ago (If i'm not wrong, I got it from HF).

Something like this:

Don't worry, It's not necessary for what i'm doing, It was just a way to mimic my web panel.
