I don't gamble that often, but when I do I usually like to play card games such as BlackJack and Texas Hold 'Em. Are you currently in profit?:Yes I am. Currently about \$6k up in the past year and a half.

What do you understand about HF's gambling rule?:)Can't gamble on HF :

Do you agree to the group terms listed below?:Yes

Tell me about your history on HF: Joined in 2013, mostly lurked for the first few years. I make threads mostly in the marketplace area or anything to do with business, or gaming. Reason why gaming is because I bet on esports too :)

What have you contributed to the community? (Link threads/posts):I did some giveaway back in the day, but honestly I posted my bets back in the days when their was a CSGO thread for betting. But mostly I pm people and try to help them :)

Also, I have had many join.me's (around 15) where I start with a low, or decent amount and turn it into something crazy. I have posted these join.me's on HF and had many people witness. Out of the 15, I would say 2 or 3 turned out bad.

How often do you gamble?: Multiple times a day. And as im writing this im watching a sports game and betting on it ;)

What type of gambling do you do? What platforms

I bet on sports, esports, blackjack and dice

I stay away from slot like games, playful games, or anything similar, because those literally just take your money.

I bet with CSGO skins (for esports) and also with Bitcoin.

Are you currently in profit?: Yes, by alot ;), I had a few losses back then but im up now

Big wins you've had (Provide screenshots/links):

Well I do not really screenshot my bets, but I had a csgo account with like 4000\$ in skins that I sold and now I can link you some accounts I own.

Here is one account that I gamble on with btc: <https://www.bustabit.com/user/chronicviper> (just this account 350\$ up)

I have alot of crazy wins on esports betting such as winning on 8% odds, I have screenshots somewhere. If I find it ill edit it in :)

Heres some wins I found so far:

<https://i.imgur.com/F14x0Vr.png>

<https://i.imgur.com/4l6a46a.png> - Example of how I bet *Notice how my losses were on something stupid like 0.5c then I win on like 50\$. :) I bet on csgo all the time. And all of that was just in 1 day!

<https://i.imgur.com/MXVTzKa.png>

<https://i.imgur.com/dgxJpyw.png>

<https://gyazo.com/d2b1e02795fcab146d0a879a8905672c>

I had pictures on puu.sh of crazy wins but these are the only ones I found not there, since their deleted. These are old decent bets I have. All the bets reset on csgolounge so cant go back either :(I have large wins 300\$ to 700\$ but I have to search if I got any pictures of that

Also when I did my csgo bets and made them public, I had a famous youtuber/twitch streamer skype call me asking for predictions constantly. ;p

What do you understand about HF's gambling rule?: I know that gambling is allowed to be discussed and planned, but it cannot be done on site. For example, you cannot host a contest that requires a buy-in.

Do you agree to the group terms listed below?: Yes. I agree to surpass the posting requirements and I plan on following all the terms and rules.

Tell me about your history on HF:

Joined way back in 2013. Haven't been extremely active due to work, school & family etc. Although I am still busy, I have found time to spark up conversations and make a small profit on the forum.

What have you contributed to the community? (Link threads/posts):

I haven't contributed as much as I'd like to, but I am planning on it.

How often do you gamble?:

I gamble daily. Mostly online nowadays.

What type of gambling do you do? What platforms?:

Currently I am making a huge profit from Bitcoin betting using sites like BVC, Satoshi Mines & Bustabit. I still occasionally go to the Casino and play some Blackjack as well as the dollar slots.

Are you currently in profit?:

Yes. I never leave the Casino until I am in profit. As for BTC betting, I started two weeks or so ago and I have turned \$5 investment into ~\$800.

Big wins you've had (Provide screenshots/links):

Here is the link to my Satoshi Mines Log; <https://hackforums.net/showthread.php?tid=5189632>

Tell me about your history on HF:

I joined HackForums back in 2014, mainly because i was interested in learning to hack, and soon became a typical 'Skid', threatening to ddos random people on skype, and all kind of random stuff. At this point i was 16 years old, and had already lost thousand of dollars by gambling on the online mmorpg game, RuneScape. I used Hackforums to buy gold so i could gamble it all away, trying to win back my losses. Not going more into details on this story as its so long! Soon i got introduced to Online moneymaking, and thats where it started. btc gambling, csgo skins, rsgp on online sites such as bbb, and basically everything you can think of. You'll often find me skypeing with other HF members while gambling, i love gambling while talking to people!
