Thread: [What's your tip to get 'l33t'?](#)

MathiasHansen - March 14, 2016, 5:37 am

Good day everyone!

So here is the whole thing; March the 12th I was scammed by a reputable, trusted 'Ub3r' user on here. A deal dispute was put in place, but the so called user is still not wanting to pay, ignoring my messages and so on. That is not the thing though.

My name is Mathias, a student living with his girlfriend in the big city, who was going to use the \$40.00 BTC I was initially supposed to receive from the deal to both try and buy one of those upgrades, as I see myself as a future and long-term member here. An investment into the forum does not appear to be a bad judgement call – the trouble in the sea is; the user scammed me, so now I am \$40.00 short.

As a student, I am not sitting on the money availability to just blow money onto an upgrade. Now do not get me wrong, I feel like upgrading on Hack Forums sounds like a great idea, but just not something I can cut into the budget without feeling it. That was why I was going to sort of get the money 'for free' to blow, as I had regiments about the product I bought, hence selling it.

Now I am looking for way(s) to get myself the initial \$18.00 to get an upgrade on here, but looking pretty empty-handed at how to cope it. Now, I do have a job and so on outside Hack Forums, but every single fund from my job goes towards mine and my girlfriends apartment, bills and food. I am looking for a side-thing to do; some tasks to pull off for you guys, and in return be paid so I can use that money to upgrade on here.

Now, the catch is; what can I do for you and get paid for it? I am without a doubt uncertain.

I am quite wise in the marketing- and business sector, so if there is something around that area I can share my expertise in, do contact me. I am doing any task for any amount of money, consider myself an accepting donation/charity, but in return for tasks!

I do not set a payment for a task, I do whatever; for whatever.

So shoot me a message if you have got something I can do for you, and I will get back to you at the earliest convenience!

tl;dr: What can I do for you, in return for money?

You can contribute on my BTC address @ 15j1KRDB4gqjfstMmT84v33wwwPwMYUyv

Start CPA to earn the funds if you want whitehat.

If you want to do blackhat, do ewhoring you'll get the \$ in like an hour if you're good, in a day if you suck.

I heard a lot about that e-whoring thing, but I feel like I have my morals too high-upped in order to make myself do that. Do not get me wrong, I feel like the people who do it to target pedophiles deserve it - but I just can not see myself doing it, I would feel bad.

Omni said that doesn't matter.

Anyways OP you could start by searching around the interwebs.
Also, don't buy a eBook here. They're all shit.

I am sitting in school right now, not sure if that was a really, really dumb idea to sign on here. We are off right now, but my girlfriend isn't off, so I am waiting for her classes to end so we can drive home. Shit.

As the other guy said, enter into a bunch of contests and giveaways for Leet since people are hosting them all the time here. I would also recommend ewhoring even if you feel off about it, if you really wanted to be nice to them you could just sell them pictures and that way they get what they want and you get what you want, there's no real scamming involved.

Enter contests, and maybe sell some of your abilities as a service. Shouldn't take too long man.
Cheers.

I wouldn't make posts like these, look into online advertising/marketing and work your way through various levels of understanding. Money will come.

FiftyTwo - March 15, 2016, 9:33 am

I would recommend selling some physical items that you might not need on websites like eBay, for example.

I wondered how many threads it would take before someone gave in.
