Thread: [paypal mycash](#)

Darnold - March 14, 2016, 4:39 pm

got a \$200 code that keeps giving 203 error. it says i can request a refund, but my account is frozen and i need to provide id and shit, but it says i should still be able to request a refund, but when it does it keeps me in a redirect loop. anything i could do?

Banana - March 14, 2016, 4:39 pm

Why don't you call paypal then?

Elijah Mikaelson - March 14, 2016, 4:40 pm

Ask someone on HF to do it for you lol and they'll send you the funds.

i already had several people try to redeem it and all of them got the same thhing

Ambien - March 14, 2016, 4:45 pm

Yeah try calling them my man

I'm pretty sure there's something wrong with these I stopped using them. Didn't even know people still use them.

I can't believe they haven't fixed this error yet. You have to call the PayPal My Cash number and send them a bunch of info. It will take a few days if not a week
