Blockchain API (Receive payments or wallet)

The demo code for receive payments is here:

<https://github.com/blockchain/receive-payments-demos>

It seems like you have very little idea what an 'api key' is. Either hire or a developer or just use coinbase easy checkout system that literally requires javascript copy and paste

Seeking Claude API access / API credits at highly competitive rates. Our volume is extremely high: tens of thousands of daily requests, ~3 billion tokens per day.

We require a scalable, stable, enterprise-grade setup with volume discounts, bulk credits, or long-term enterprise agreements. Only serious, long-term suppliers please message me directly.
