Thread: [Startup Manager + Hidden Startup Detection](#)

Sleek. - March 15, 2016, 1:27 pm

Startup Manager is a utility that informs the user of all executables that run on (Microsoft Windows) startup.

Currently supports:

Startup Folder

Registry

Scheduled Tasks

Other Features:

Saves log.txt to directory of the startup manager!

Hidden Startup Detection

It's in the original post.

feel free to do whatever the fuck you want with it. ?
