Hi,

This is my 1st Post in Hackforums.net hope someone help me.

I need internet download registered version without cracker, Somebody suggested the below command and key's to registered idm

```
notepad %windir%\system32\drivers\etc\hosts  
127.0.0.1 tonec com 127.0.0.1 www tonec.com 127.0.0.1
```

but believe me this is not working anymore , can anyone have latest idea how to hack and crack internet download manager?
