Thread: [TRILLIUM SECURITY NATIVELOCK v2 - THE NATIVE ANTI-CRACKING SOLUTION FOR DEVELOPER](#)

Trillium - March 16, 2016, 3:09 pm

[img]http://www0.xup.in/exec/ximg.php?fid=49422092[/img]

[img]http://www0.xup.in/exec/ximg.php?fid=11193611[/img]

Trillium Security NativeLock v1 is the perfect native secure solution if you want to protect your Programs against Reverse Engineering

EULA/Terms of Service:

Spoiler ([Click to View](#))

§1 - All sales are final and you may not chargeback. If you have a genuine grievance, please contact me and we'll discuss possible options.

§2 - You not allowed to cracking this Program.

§3 - The Coder 'Trillium' is not responsible for your use of this program - I provide you with the program in good faith! And this product is for education purposes only!

§4 - The EULA can change at any time, with or without notice.

§5 - Breach of the rules can result in the termination of your license.

§6 - I disallow any kind of illegal activities which you maybe will do with that tool!

§7 - I'm not responsible if this gets patched, it is however very unlikely to happen anytime soon.

§8 - The product is not guaranteed to stay FUD.

§9 - You are not allowed to resell builds.

If you break one of these rules it will lead to a serious consequences!

Options of this Program:

Spoiler ([Click to View](#))

1. AES-256 Encryption for protecting your Files
2. Generate always an 256 Bit unique secure Key
3. The Storage methode is double Encrypted
4. It include 8 private unqiue Assembly Anti Cracking functions (I will not tell exactly here how they work because I dont wanna give crackers a tip but I can tell you its no bullshit like FindWindow() Functions ...)

Trillium Defense Solutions Hardware ID Tool:

http://www.xup.in/dl,14870568/Trillium_Defense_Solutions_Hardware_ID_Tool.rar/

Technical details about the Program:

Spoiler ([Click to View](#))

Great Tools Ever.. Good Coder

Big Voucher For Him

Solomon Grundy - March 16, 2016, 3:57 pm
awesome as OP, always delivering HQ tools ?

Trillium - March 16, 2016, 4:13 pm
The old tool "Trillium Security MultiSploit Tool v.3 got cracked it had only some easy IF checks for hwid no anti debug protection now all my programs are updated with new versions and i coded my personal anti cracking program so dont worry the proof will be coming soon but i just have to handle a very huge couple of conversations ...

Regards

richard205 - March 16, 2016, 5:36 pm
WOW another wonderful tool
keep it up BIG BRO
Great Tools A Very Good Coder

A Million Vouch For Him

Trillium - March 16, 2016, 8:05 pm

Thank you all for the nice feedbacks! ?

Im online to give support and accept sells ?

Here is a proof video which showing Trillium Security NativeLock v1 protect successfully against Ollydbg

[Video: <https://www.youtube.com/watch?v=78EBZD5NWhs&feature=youtu.be>]

Regards ?

Staid - March 16, 2016, 10:56 pm
Vouch for Trillium, he's a kind guy and legit member. We've had a few hundreds worth of exchanges with him successfully. Good luck with your sales.

Trillium - March 17, 2016, 12:55 pm

Thank you all for the nice feedbacks ?

Im online and ready to give support and accept sells ?

Regards ?

(Mar 16, 2016 04:05 PM)Wardow Wrote: [\[CITE\]](#) Wait, you offer this service when your own tools got

cracked by 0x22 on other forums and he claimed to me it was:

Spoiler ([Click to View](#))

[img]http://rZR.re/get_img.php?id=ad9508b835715c4a971d6ca7065c6cca[/img]

Do you think you are able to provide a reliable protection?

You should provide samples on popular cracking forums and see if its strong enough until this happens i don't recommend purchasing.

I just would to say the same thing....

let's see this in the future but , providing samples to known crackers should be the best proof possible

GearCEO™ - March 17, 2016, 10:49 pm

Good to see your new product again. You has my vouch and good luck with sales too.

MagicMushroom - March 17, 2016, 10:52 pm

mind posting a crackme here ? ?

Sleek. - March 17, 2016, 11:20 pm

I really doubt this product is any good, when your trillium 'exploit' kit got cracked real fast.

Trillium - March 18, 2016, 4:18 am

Thank you all for the nice feedbacks ?

And please guys check the proof video and i wrote before the old "Trillium Security Exploit Tool v.3" got cracked yes but it had no Anti Cracking Protection only simple If checks which checked the Hardware ID and that you easy can remove and replace with "00" (for that you dont need really knowledge) thats why i recoded all my tools and all now very secure i released for every kind of my program new Updates.

New Releases:

Trillium Security MultiSploit Tool v4

Trillium Security Crypt Reloaded v6

Trillium Security NativeLock v1

For more infos feel free to contact me or check my Sell Threads ?

Im online and ready to give support and accept sells ?

Regards ?

Sleek. - March 18, 2016, 6:03 am

1. AES-256 Encryption for protecting your Files
2. Generate always an 256 Bit unique secure Key
3. The Storage methode is double Encrypted

How come none of the above are cracking protections?

Also provide reverse engineers with a crack me

Trillium - March 18, 2016, 6:16 am

I already wrote about the Anti-Debug engines on the first page but i wrote on it too that i dont tell exactly how it work because i dont want give Crackers a tip i postet a video which showing protecting against a very known Debugger called Ollydbg v.2

Regards

MagicMushroom - March 18, 2016, 6:30 am

u still didnt answerd my question/request.

mind u post a crackme ?

Sleek. - March 18, 2016, 6:31 am

So the only protection is anti debug?

?

Wardow - March 18, 2016, 8:43 am

Anti Debugging are really weak protections and are patched VERY easily, just replace the anti debugging instructions by others and you have the job done, the ONLY real protection is code mutation, and program complexification to avoid modification and reconstruction of an usable crack.

MagicMushroom - March 18, 2016, 8:48 am

(Mar 18, 2016 08:48 AM)MagicMushroom Wrote: [\[CITE\]](#) true coders will never have a waifuu :D

Yeah but implying this guy is a true coder.

Trillium - March 18, 2016, 11:45 pm

First of all this is a sell thread I dont wanna see any flame post or anything like that here nobody say you must buy it and the name "Anti-Debug" is a main topic name for different Anti-Cracking-Engines. For example my program Check if different dlls are loaded in the memory , it compare the PE Checksum, it change the EntryPoint , it compare different memory addresses

And a crackme will be coming soon

Regards

Wardow - March 19, 2016, 12:18 am

Regards

But i can hook all your checks and i do what i want because it is my computer, never forget a program never makes the rules onto a computer, it's always its owner that rules it, you need to be smarter and create a pain for the cracker to reconstruct a possible crack by having your own PE-like structure.

AND don't forget OP is a multi account, take a look at this rep.

Will be waiting for the sample ?

MagicMushroom - March 19, 2016, 3:44 am

hi trillium, please i need your security multisplloit tool, i have been trying to add you on skype but to no avail. please hit me on skype i need to purchase this tool. my skype username is simonlaz07@hotmail.com

Pe?cil - April 12, 2016, 4:00 am
Awesome product.

Vouch for you Trillium.

Trillium - April 12, 2016, 9:54 am

Hey guys im very sorry for the delay but i got a big problem last days i got a cable brand over night in my flat and lost very much things and my computer and nearly all backups got burned too i had to restore everything that took a little bit but now im fully back again and available for support and selling ! And again im very sorry for the delay !

All old tools will not work anymore because i changed everything/had to make everything new all customers please send me a PM or contact me in Xmpp or Skype with your hardware id so i can activate all licenses again ?

I am online now and ready to give support and accept sells ?

Regards ?

Im online and ready to give support and accept sells and all PMs/Requests are handled ?

Regards ?

Trillium - April 24, 2016, 9:49 pm

Because of all this Fake Imposters i made a new skype acc here is it:

TDS_Trillium

Please add in future only that ID the Main Post in that thread is updated too! And please all old customers add this new ID too!

That is my new skype profile:

[img]http://www0.xup.in/exec/ximg.php?fid=10567045[/img]

That was my old skype profile:

[img]http://www0.xup.in/exec/ximg.php?fid=29437871[/img]

The problem is nobody could find me with that name "live:trillium_3" only with "trillium_3" when you search after that name there are too much Fake Imposters.

For example here a list where you can see much Fake Imposters dont trust them!

[img]http://www0.xup.in/exec/ximg.php?fid=12482838[/img]

Regards ?

Stiastro - April 29, 2016, 12:13 pm

Insane Developer - May 29, 2016, 10:05 pm

Do you have memory protection? What debuggers do you check for? What sort of obfuscation do you have?

And strong encryption doesn't matter since if it is not well protected and obfuscated, the key can always be extracted. No one will go around trying to crack encryption when they are decompiling.

Trillium - July 7, 2016, 11:38 pm

@Insane Developer

It uses different checks against all common debuggers and for memory protection it use anti dump functons for more details you can add me in skype or xmpp ?

Im online and ready to give support and accept sells and all PMs/Requests are handled ?

Regards ?

Closed User - July 8, 2016, 3:56 am
