You weird, a icon changer ain't that easy to write?

I dont get your last question "BTW its a source you take" ??

WTF

Thanks for the share, does it change the icon of anything on the desktop, or just things such as servers?

Deathader - July 4, 2010, 9:23 am

Is this based off the fLaSh source?

Nope death. it is based on UpdateResource API, to update icon.
here is the original thread : <https://hackforums.net/showthread.php?tid=422072>

an exemple was made in C# by a chinese guy, and the vb version needed translation by hand, so julient did it before i finish -_- but i don't see what newbie really did O.o.
btw thx scotty for giving proper credits.
