Thread: [Preev site down?](#)

DuguWudi - March 17, 2016, 7:59 pm

I cant seem to access the price listing.

Is the site currently down?

tl;dr:

- preev is free
- preev is high maintenance
- preev does not benefit from this service
- preev's server loads only add to the costliness of the service

Different for everyone. Some people use google, coinbase, preev, many BTC graphs out there.

Last time this happened, after the site is back up

BTC skyrocketed alot :P

Lets hope same happens this time too

Preev was down for about 10 hours or so. You probably were displayed with a Heroku error.

Anyways it's back online now.

- This.

I usually just use Coinbase or Bitstamp when it's down.
