Mostly because you choosed a icon which isnt fud

Satana - March 19, 2016, 7:58 am

you need a photo and tool convert jpg in ico
;)

Wrath - March 19, 2016, 4:51 pm

x - Crypter v2.0 hasn't been refud'd in a while now.

But without an icon I can get 2/35

These are the options I recommend:

- Install (Appdata)
- Inject (Cvtres)
- Randomise USG (10-15kb)
- Delay (15-30 seconds)
- Pump (1mb or more)

And after that install a useful program called Resource hacker and remove the version info.
