Thread: [In need of music](#)

King Cin - March 20, 2016, 11:56 am

Throwing a huge party like a month from now and I really need as much party music I can find. In need of house and rap/hip hop. I'm not even looking for music that's considered good, just needs to be music that goes hard on a party. Parties are dominated by alcohol anyways. Future's music isn't good, but it's still tight. Things like that. I also like EDM artists like VINAI, R3HAB, KSHMR, Borgore, JAUZ and Ephwurd. All suggestions are appreciated.

brutu5 - March 20, 2016, 1:09 pm

Drake, Vic Mensa, g-eazy, all good hip hop artists.

R?????obert - March 20, 2016, 1:10 pm

Get loads of future house songs, it's the best for partys

Probably - March 20, 2016, 10:33 pm

I have a playlist that I update constantly with mainly Future House music, sometimes other genres (trap and shit). Like 350ish songs in it atm. PM if you want to listen to it or if you want me to make another playlist with x hours worth of music.

EDIT: soundcloud (com) /not_probably/sets/tuneami

Made a new sc account (other was personal/etc). Music at the end is most recently added (typically most recently released too). Might've added some older shit in the past few days because of Ultra.

King Cin - March 24, 2016, 1:20 pm

Thanks for the suggestions. I've checked some out and am in the process of adding others.

This playlist is filled with awesome tunes too if you are interested.

Not sure if it's good for a party though but still; banging

King Cin - March 24, 2016, 1:39 pm

I'll post some songs I've put on my list already so you guys can get a clearer view as well:

Probably - March 24, 2016, 11:15 pm

Tried to cut down my playlist. Still ended up being like 10 hours. Maybe if I cba I'll cut it down a bit more.

Started sorting by artist and then I moved some up the better ones to the top. Few trap(ish) songs at the bottom.

Most of the songs are like that ELIAS remix you posted.

Just throw in some raw hardstyle and everyone will leave and you get all the alcohol for yourself ;) Nah but most users here had the best things in mind

Future, g-eazy, drake, fetty, and French should get that bumping.

Muddy Waters - March 27, 2016, 6:25 pm

Electronic music, rap, hip hop is not really my style at all but I kinda like this song. I have no idea what genre it belongs to but maybe it could fit?

It's kind of a funky harmonica with a beat and some lyrics.

I'm pretty sure that's Progressive/Deep house.
