Hello,
we are currently testing a new location for our teamspeak 3 hosting in Italy.

Informations about the free trial:

Location: Italy (Milan)

Routing: Level3 Premium Routing

Slots: up to 50

Duration: 30 Days

DDoS Protection: Up to 800 Gbps / 4.2 Tbps on known patterns (NTP/DNS/SSDP etc.)

Get your free teamspeak 3 server instantly: [Get it now!](#)

You only need to provide first & last name during checkout.

Note: We are not providing any uptime SLA on this node! Its just a test.

Please share us your experience.

Greetings Hydra from Terrahosting.ovh

Added our anticrash system to that location. It checks every minute if the server is up and restart it if needed.

The DDoS Protection tanked a 300 Gbps DNS attack without problems some days ago ?
