Thread: [\\$140 BTC | Scammed by UID: 2426788 Loius Vos](#)

Hey all, I was scammed for \$140 BTC by the user "Louis Vos", also known as "Wilde Westen". He was originally going to sell me a Amazon gift card worth \$200 for \$140 BTC, but the code ended up being, "Lol" from his Paylvy link.

That's my entire conversation with him. I purchased his gift card from Paylvy and then he linked me to an attempted scam of his. What a swell guy. I've lost ~\$500 on this forum in the last month. This is becoming annoying.

The code from my email:
