Nerve Central Media

Hi, many of you may know me from other forums, I am RECWizard, social engineer, cracker, and media injector. I started NCM years ago on some old dead forums, and we have grown into a generally speaking large and intelligent group of individuals! Most of the time our resources are spent on finessing / social engineering, but we do crack and run in the media a bit aswell!

We are on most forums, and are pretty active, you should be able to tell pretty easily if you are talking to a member of NCM, most of the time our posts are going to be less serious but we are here to make money.

Anyway, here is the basics of what we do; NCM is a group that focuses on one project at a time, soon we'll be setting up many services here, individuals in the group run shops like config writing, to account cracking tutorials, btc exchanges etc

But NCM Community Shops will be bigger projects like Web Stressers, Db leaks, We plan to run a few sites similar to whitepages, etc. We are here to help!

HOW TO JOIN

We will be accepting members from this forum shortly, this thread will be updated with how to contact me, or moderators of the group by the end of the day.

Hey RECWizard I'd love to get in on this group. Just so you know though you aren't allowed to talk about SEing and BTC Exchanging on this forum. Thread reported
