Honestly there's no point in buying this lol.

Still nice job profiting of the fact that you are a girl to make money easily.

You don't see things at a marketing standpoint, These could be used as clickbait.

I made a sign for that thread 3 hours ago and has already gained 37 clicks on the sig. I started tracking the traffic gained from my sigs using goo.gl now to prove these are not pointless.

<https://i.gyazo.com/3999f2fae86ff6790395aaed8e4f647a.gif>

That sig doesn't even have any baiting text it is just a pic of me holding a starbucks cup with the text on it saying \$10 star bucks cards nothing indicating its clickable so 37 people scrolled over his sig and saw it was clickable and tried it.

Sigs are a good way to generate sales and using click bait is a easy way to get your product more attention from people who maybe wouldnt of seen it without.

I did, I upgraded my phone better to say. My current sig isn't the best example due to lighting [Its dark here] and turning the pics into a gif does diminish the quality a bit but comparing this

To

Or this

The quality has changed incredibly.

I use my phone regardless there's only so much i can do with that but i am using the edge and its camera ratings are triple compared to my old phone

Morty - April 12, 2016, 5:24 pm

now that they're side by side its noticable but i thought you meant you got a proper camera setup.. thats where my confusion came from.

RoT wins again lmao, whats your RSN?

Half of these you don't even have makeup on. Some people like pancakes. Should give them the option.

Also there should be more options to choose from like underwear pics or like sticky tape the note to one of your ass cheeks. Just ideas to think about..
