Got a chance to take a glance at this one.

I have to say that I am pretty impressed by the content.

I personally would never think of such a unique approach to the method and it has some great potential. Also it can be made fully autopilot, but doing it manually should not take more than 5min. Great e-book, simple and tbh even dummies can make a bank with this one.

I don't get why people blur out the last letters in a claim code. Amazon blurs the first few ones for you and it's not like you can be identified from it either way.

McCaskey - March 28, 2016, 10:31 am

Seeing the reviews I'm sure it works.
But I seriously have my doubts.
When has an Ebook ever worked... really?
If it does work, it will only work for like a week, then become saturated.
Most people on Ebook reviews are just friends vouching and not real reviews.
Ebook can't be trusted in my opinion, but GLWS OP.

Sorry, but if 50 people will saturate it, 5 people doing this for a year will for sure saturate it? Why would you sell something 3,000\$ a month worth for 50\$ when it takes 30 minutes a day? Give us some proof you're earning this amount.

Well maybe more than 50 but I'm not trying to get this method known publicly at all. & Because as I've explained before, if I sell all 5 copies, I'll get \$250 which will help me even more to get my macbook pro even faster plus I'll gain some reputation on here hopefully. Before purchasing this method from Mr. MoreThanMoney, please take into your account the following words of his:

(May 18, 2016 08:58 AM)MoreThanMoney Wrote: [\[CITE\]](#) God can yous just fuck off what do u expect from an ebook stop trying to be smart and just tell me some jobs to do it looks like, as if though, MoreThanMoney cares -MoreAboutMoney- than about how successful this method is or can be.

I would strongly advise against purchasing this money-making method since it's all a false advertisement.

Correct me if I am wrong but I don't think a person who is making \$2800 per month would be in need of help regarding how to make money without cleaning cars.

(May 18, 2016 08:50 AM)MoreThanMoney Wrote: [\[CITE\]](#) What jobs can me and my friend do? What else could we do that's similar to that?

Lastly, I am expecting to receive negative feedback in form of a number which will probably have nothing to do with the real me but will, more likely, have to do with satisfying his ego and rage by claiming this warning as 'sales trashing'.

So be it. I will open a community alert in that case.
