Can someone point me in the direction of a good place to buy these.

Thanks.

ebay is your best bet on getting them cheaper than retail. Or a good coupon some how

Where are you from?

If you're from the Uk try: Gumtree or eBay

iDuL - March 29, 2016, 12:41 am

Saw some refurbished ones on sale somewhere, forgot where though.

I'm from the US, thanks for the suggestions. I'll try ebay.

Go to Amazon and buy the used ones. They're usually \$100-\$150 cheaper. They got a pair of a40's for \$153 right now.

You can get pretty good deals on Amazon, I got my A40s for \$150 less than retail and they were brand new.
