do you have any filters like people who are 100% time wasters

There is never a 100% possibility but these come pretty close to it :

Age 19 and lower

Most Indians or any Asian country

Any username that's the name of a celebrity

Profile Picture of Abs or Dick pictures

People who message you with a dick pic, or straight up ask you to trade nudes

That's all I can think of right now haha

miserego - March 28, 2016, 4:22 pm

1)How do you bring up the subject to sell nudes? I've talked to 400 guys the last week and when I ask if they want nudes and what I get in exchange, 99% of the time they say "my pictures/cock". When I bring up money they don't respond/they say they will buy after I send some previews(and they never do)/they say they can only trade etc. Only one guy actually paid me (he did it really quick without much talk).

2)What you do with all those guys that want a relationship? Do you keep talking to them hoping to milk them when they get hooked to you? Do you ask them straight away to buy?

3)How about when they ask "are you single?". I've found that if you say "yes" they might believe they can get a girlfriend and that can make things easier but when I say "no" they get more horny, they like the idea of a taken girl talking to others. Not sure which would be better.

I use kik and I get my traffic from the (many) apps Google play has for kik traffic and from all those "kik contacts forums" you can find on Google.

1) I, personally just tell them I'm selling pictures with the first message I send them. If they don't want to buy then they don't reply and if they do want to buy then they will go on from there. This cuts out time wasters by 80%

2) Of course. If they already paid once then chances are they are going to buy again, so you should always keep in touch

3)Cant really say much about this. I personally always tell them I'm single, and that i broke up recently.

It's not about ewhoring per se but I'll ask anyway

If the buyer sends you the AGC and after that he "cancels" it, do you get a notification or something like that?

I'm not too sure, never had it happen to me but the chances of an AGC getting canceled is very very slim, if you dont scam and give them what they paid for ?

Unfortunately, you don't get any notification if they cancel it.

You'll just know when you try to redeem it and it won't work.

Can't go in too much detail on this as I might end up going into PayPal fraud, but one method you could use is make other PP accounts dedicated to your Ewhore, and then immediately send the amount to your main PP account which is Verified, or convert it to BTC in the currency exchange section.

I have had that problem too with Ghostkik. It never lets me select a picture from my computer for some reason, so I started using an older version of an unModded KIK app, and pair it up with a Fake Camera App. Never had any problems with the Fake Camera app, it always lets me select pictures from my computer.

What you can try to do is, drag and drop the picture pack from your computer, to your bluestacks, and maybe that will allow you to find the pictures with Ghost Kik.

It depends if you're doing well with your current pack. If you're actually selling theres no need to change packs, but if you're struggling to get sales then yeah you should. Also it's a good idea to have second ewhore's on the side to sell pictures to clients who have already bought from you.

And by verification part you mean the SMS verification? I can't really help you with that, you could try textnow.com for the SMS but i dont know if it will work.

I personally use <https://temp-mail.org/> to verify KIK accounts, or KIK traffic sites, and then make a yahoo or yandex email account for PayPal or AGC.

Sorry to steal OP's thunder here, but if you use a smartphone with the gmail application to make a new gmail account, you don't need to put in any unnecessary information or verify your phone number. It's just email address, name, password, maybe a captcha or two.

These questions are about currency.

1) What methods of currency do you use? Example: PayPal, Amazon, BTC..

2) How do I make a solid PayPal without it getting limited so fast?

3) What's the method for getting your payment into your bank account IRL so you can buy some chips from the cornerstore using your bank card?

-

This is my main question since I have received payments but I don't know how to get them from being AGC or BTC or eWhore Paypal. to my paypal without causing anonymity issues like people seeing my IRL name when they send me payments for AGC.

2) There can never be a solid paypal, but the best i can suggest to you is, have a personal, verified paypal, and send the money from your ewhore paypal directly to there asap

3) I exchange AGC to BTC and then sell the BTC using coinbase and transfer it to my Bank account using Coinbase aswell.

Yes, the ultimate question. How to make the Indians pay for your nudes.

You see Indians are from a Tire 3 country, and tire 3 countries produce the most amount of Time Wasters as we do call them. Time wasters are very hard to make money off of, but it is possible.

To make money off of these Time Wasting species from the Indian race, you have to have acquired an intense amount of Social Engineering training, an amount so huge that it can only be obtained by having experience in Ewhoring of 3-5 years, such as myself.

Yes, Indians are indeed hard to break, but first you must achieve what is even harder. You must first successfully manage to Ewhore your dad with a picture pack of your sister, pictures you took of her while she showered! Once you achieve this, you can begin successfully ewhoring Indians.

If you are ready for this step to be unleashed, the scroll which reveals the real secret on being able to ewhore indians, please, but gently and softly, unveil the spoiler.

- how you are able to create ewhore PayPal and send the money from there to your real one, without connecting the ewhore PP with credit/debit card.

I can create account and I can receive a money, but I can't send a single cent?

- have you ever received BTC? Or people that pay for nudes don't use bitcoins?

Can't reply to your first question as it goes against HackForums Ewhoreing rule number 4

4. No topics or discussion on breaking Paypal TOS or fraud

And for the 2nd one, no I have never recieved bitcoin as payment, mostly because I never ask if they have BTC because I feel like it will raise suspicion, but I know that some people here have received payment as BTC.

AGC is the easiest and then convert it to BTC on here in the Currency Exchange. CashApp is also a good payment method.

For example?

E-whoring is easy when you're good at it, and when you're good at it, it pays well.

I would suggest charging \$2-3 per picture. And videos are 25-100 depends how long the video is

I know you mentioned paying a girl \$100 for her pictures is one way to build a pack but what if she decides to go into ewhoring herself? Any other less obvious ways to make a pack?

Only way to make a pack is to pay a girl you know for her pictures. Can't really suggest another way
