There are a lot of shady ebooks on here and a lot of them are scams. This is a genuine product that I worked hard on. 100% quality guaranteed

[This book is 23 \(Yes 23!\) pages of everything you've ever wanted and need to know about sexting broken down simply. You will learn how to turn women on, make them sexually comfortable with you, have them associate you with pleasure, and by the end you will understand how to give a woman an orgasm before you even sleep with her.](#)

(Mar 29, 2016 08:37 PM)BoxxyBabee Wrote: [\[CITE\]](#) Alright so i read this Ebook being a female i decided it was worth looking into the mind of the other gender.

Pros

This ebook will make you better at sexing it gives a lot of good examples and helps understand woman better sexually.

Its interactive! No not literally, you wont be sticking your dick into the book and fuck it.. This ebook is written to let you see how far you can come by following the steps like one of the example given was how would you tell a girl that you want to suck on her neck and let you think of how you would word it then gave you a masterpiece of a example to see how far you can learn with this ebook.

Its a cheap read. You won't find this much education content on hf for less then 8 dollars.

The grammar abnormally well.

You can truly see the author finds passion in what he has written about this is a well put together read unlike a lot of hf ebook's out.

Vouch for the Author. Good luck with all your sales.

(Mar 29, 2016 02:21 PM)Mario® Wrote: [\[CITE\]](#) Wow... I've read this ebook all the way through. This ebook is goes very in depth, it literally explains everything down to what exactly you need to say to pleasure a woman. I personally have only read one other sexting ebook from hackforums and I must say this one blows it out the water. Things i've never even thought of are in it. He also explains what not what to say and how to say it differently to have the best effect on women. His ebook covers each step on how to make a woman orgasm without being in her presence. I personally have never even thought of some of the things he explains. Like I said, the ebook is long which is great. You will have no questions once your done reading it because of the miniscule detail he goes in. I'm not sure where you learned this OP but props to you for writing such an in depth and well written ebook. If you guys are looking to the ultimate sexting guide, this is it. Don't miss your chance on getting the girl of your dreams.

Never seen such an e-book before but very good tips on sexting. This could even be used when e-whoring (thats the best bit)

Quality : 9/10

From everything from what to say and how to virtually pleasure the girl. This is amazing. He literally has everything detailed to the brim. Including LINKS and EXAMPLES of what to do.

Price of Product (7.99) 9/10 :

Good for the price as its long. If your a newbie at sexting this is a must-to

Overall : 9.5/10

Amazing E-book. I might extend this review later :)

[I don't want to offend anyone specifically, but a lot of the eBooks I've seen when it comes to women in this Bazaar are really poorly made by people who have no idea what they are talking about. Here is what you have to go off of to buy my book.](#)

[Why you should buy it:](#)

- It is seriously high quality. This took me at least 10 hours to write and edit if not more.
- There is a sample that has the first 5 pages of the book so you can see the high quality content you are purchasing
- Other people's honest reviews, which I expect to be very positive once the referrals come rolling in
- The screenshots I posted. There is an album to even more images
- If you have any quick questions after purchasing the product you can message me on here or on my Kik and I will get back to you when I can

Understanding sexuality and expressing it in words is a very powerful tool. Here are a few examples of situations I've been in with girls I was texting:

- A girl got so turned on she masturbated in the theater during a movie in the dark
- A girl went to the bathroom during class to send me pictures and take care of her urges
- Many girls locking themselves away during Thanksgiving/Christmas/Family gatherings because they are so turned on that they needed to get off
- Most girls I sext with have an orgasm before I meet up with them again in person

[Here is a gallery of even more pics. Yes these are all different girls.](#)

[What in the world are you waiting for!?! Purchase this eBook by clicking on this link right here right now!](#)

Review:

The grammar of this eBook is terrific with me picking up almost no errors what so ever. The author put so much time and work into this with what you can see in the length of this eBook. Some might find the eBook a bit too long but they are definitely getting their money's worth. I learned quite a bit from this and am most impressed. I definitely strongly recommend buying this and reading it thoroughly as it is a very HQ piece.

Alright so i read this Ebook being a female i decided it was worth looking into the mind of the other gender.

Cons

This Ebook had a'lot to offer. Sadly that might be a bad thing on this forums. Hackforums users have a short attention span if we are being completely honest and with this ebook having over 20 pages i feel this might scare off some people who actually could benefit from it.

I felt there wasn't enough content helping the reader find ways to engage into a sexting conversation. There was some but i feel like there could of been more seeing there was a'lot of content focusing what to do when already engaging in sexual conversations.

I feel like this ebook was made for more socially confident people when in reality the un confident

would be the ones looking into this kind of product.

Pros

This ebook will make you better at sexing it gives a'lot of good examples and helps understand woman better sexually.
