I posted a news thread about Trump supporters pepper spraying a teen and calling her a "N word" lover. I quoted the saying in text but it was changed to "Person" lover. For the news section can this be changed? If we are quoting things like this they should not be censored.

I think that it's perfectly fine the way it is.

Censorship in media is not very intelligent.

I cba about debating something retarded like this.
its doesnt show for a reason. people used the word alot.

as the article linked it as n****r u should also in the title.

deal with it
