Today on 3/30/16, He sent me a PM asking which Gamestop gift card i was looking for and i said i will add you on skype, so i add him on skype and everything and early this morning, he messaged me on skype while i was sleeping if i still was looking for a \$50 gamestop card (which i said the message in my PM's) and i said "Yes sorry i was sleeping". and after that he said i accept BTC, and i said i only do payment via PP. Then he said i can pay 60% which i thought wasnt a bad deal, and i said yeah lets make that deal happen, so he said "im going to see if my buddy is avaiable (on skype or something)" and i said to myself, this is sketchy but i went along with it, and he told me to send F&F saying "I owed you \$30 for the items you sent me, thanks UID = 3027463" and i knew right there it was a bad idea but i needed a gamestop card badly. after that i sent the payment, and everything else, but he said his "friend" never sent a message back on skype to confirm the payment and stuff, and i kept on messaging him saying did he get it about 5 or 6 times, and he kept saying "hes not back" so after like 1hour sitting and stuff i went to make a dispute and PP took the scammer's side because it was F&F... and for hours ive been trying to talk to him but my messages are ignored and he is always online on here so i know he is scamming. Thanks for looking at this post and here is his profile link: <https://hackforums.net/member.php?action=profile&uid=3027463>

if anyone wants to see the conversation BACK TO BACK i will send screenshots.

This user has two verified (by community) scam reports open for him I am not sure why he isn't Exiled yet, staff needs to end his exit scam.

Not even sure why you went first in the first place, second off, never send a message on paypal that says "I owed you \$30 for the items you sent me" since 1. You never received the item, and 2. Its an obvious scam. If PayPal sees that message and you say "I never received the product this user tried to sell me" they will be like "Oh really? Cause you just put the message down that you got your items. Case closed."

This is insane! This user has scammed multiple people now.
Sorry about this! Good luck with finding a solution.

Why do people scam? Is it fun? How do you happen to enjoy that money? I mean rather than

scamming you can work harder, and earn a lot more!

This world is never gonna change.
