EDIT :

That was fast OP! Will give my review afterward, will going to try this now! thanks!

EDIT 2:

Just created my account, it says that I need to wait for 24hours first in order for it to get verified. Will update post once done. Thanks again OP!

EDIT 3:

I just received this :

Code Your account has been placed on hold pending additional verification. You will not be able to log in to your portal. If you do not respond, your account will be suspended and you will no longer be able to access services.

? rooq?e ? - April 15, 2016, 8:33 am

^

Did you create your account with a VPN? They have an automatic system to check for various things and flags your account. You can make multiple accounts safely tho, I have used this method for 2 years and made plenty accounts simultaneously.

Anyway, if this account is removed. Then try again, however if you fail another time- then I'll make an account for you.

Good luck!

DanteStigma - April 17, 2016, 6:40 am

It's legit and totally legal, OP even helped out through skype.

One thing you need is a valid credit card with 1\$ (they try to charge if it is a real card but the amount is never leaving your credit card, just a authorization method).

All you need is do these once, and then don't think anything back 12 months and use it however you want.

Thanks so much!

The Witness - April 17, 2016, 6:41 am
