Thread: [\[Free Tutorial! \] Purchasing apps for free on Google Play Store ~ Trickle Income ~](#)

The Drama Llama - March 31, 2016, 10:05 am

Hi Guys,

So i've been using this for a while and its became apparent that not everyone knows about it so i figured i'd share what little wisdom i have with you.

As far as i know, it only works on ANDROID, while there are applications that are similar for iOS, i dont use them, i dont know who develops them and therefore i cannot vouch for them.

What is it?

[Google Opinion Rewards](#) is an application for Android devices that allows you to earn Google Play Credits. These credits are simply just money that you can spend on anything in the store, whether it be an application from the store itself OR can be used for in-app purchases within applications such as games.

To earn these credits you simply answer the questions that the survey provides. Usually between 2 and 6 questions.

Simple as that.

How does it work?

You receive a notification when you have a survey. It's random, you can't choose when they appear and as far as i can tell, the only way to influence if you get the survey or not is to do more. Last year when i was doing more, i was getting one or two every week or so, since the new year i've not had many because i wasn't paying attention and swiped a few off because i didnt have time to do them at the time.

How much will you make?

You will be lucky to make more than £2 per month. Ive made 42p this month.

The pay out is based on your the survey you answer. I've personally made from 0.08p to 40p in a single survey.

How long do they take?

Seconds. Literally seconds. I don't think any of the surveys have lasted more than 30 seconds for me?

My Earnings, to show you it is a real thing -

Baring in mind that i've swapped phones a few times, and forgot to reinstall. Hence the gaps in earnings ?

Disclaimer:

This is not going to make you rich. It is NOT a stable income and you won't be "Rolling in it". I use this simply as a means to pay for applications and to pay for in-app purchases for a few games that I like to play. ?
There you have it.

Crack on, and enjoy an extra few levels of candy crush on me ?

Looks like a really neat idea. Candy crush addiction lol :D

Rasta - March 31, 2016, 10:16 am

Looks great! Keep up the HQ work!

Not bad at all...

In all respect don't lose what you have as sometimes the time spent is worth more in the long run.

After you get paid again, you could always buy a stock or 2.

Avoid going overboard with a load of misleading responses due to the fact that the algorithm could always be updated to catch up on honesty.

Cheers!
Gotta start somewhere.

Received a survey this morning, so I took screen shots.
I've added them to the original post so you have an example of what they look like.
Was literally 4 questions, so it took about 15 seconds to complete? ?

The Drama Llama - April 5, 2016, 7:42 am

Made another 25p from this today. It's not much, but I've now got £1 to spend on random shit for doing literally nothing.
I'd recommend downloading the app if you use android ?

SteezyHB - April 5, 2016, 7:46 am

Thank you for sharing, even though the pay is next to nothing, the work is also next to nothing, which makes it pretty good :D

Exactly haha. - It's only small, but it means you don't have to pay for any android apps. You can just use the google credit :)

The Drama Llama - April 21, 2016, 7:26 am

Im now getting a survey pretty much every day. Made about 50p this week.

Not loads but means i want to buy a random app, i can buy pretty much any app that tickles my interest for free...

The Drama Llama - April 29, 2016, 10:55 pm

Made just shy of £4 this month.

Not a lot by any standard, but still means i dont have to pay for any of the apps that may peak my interest or in app items ?

ZeroFG - April 29, 2016, 11:18 pm

This does work. I made over £5 last year :) the thing is that so far this year I haven't gotten a single survey so that kind of sucks :(

Ubers - April 29, 2016, 11:47 pm

Ahh I can't download it :S

That's fair enough, but not everyone does ?

The Drama Llama - April 1, 2017, 6:48 am

Just an update to let you know ive made over £23 with this now. :)

Would still recommend anyone on android to use it. Literally takes 10 seconds

DjEv0 - April 4, 2017, 12:07 am

really like your method gonna try today and give you back feedback. Thanks
