Thread: [\[#1 E-Whore Guide\]Felikss' Guide to E-Whoring!\[Detailed w/ pics\]](#)

Felikss - July 5, 2010, 10:17 am

Hello my name is Felikss and I am writing this guide so people will stop posting the annoying threads about how to e-whore and for suggestions. I hope this will stop that and answer most or all questions. I will try to be detailed as can be and include pictures when necessary.

Table of Contents

1. About me

1a. How I practiced SE Online and IRL.

2. Requirements

2a. Some suggested websites and usernames.

2b. Pictures you can use.

3. How to talk

3a. Reading the person by their actions/way they talk

3b. Getting the payment

3c. Deciding to stay/find new.

3d. Blackmailing/Being Confident.

1. About me:

My name is Feliks and I was born in Moscow and lived there for 8 years. I now stay in the West coast in the USA. I am 16 years old. Playing football, working with computers, and messing with the feds are my hobbies :). I have been told I am a very funny and nice person once you can get to know me. If you ever want to talk just shoot me a PM I'd be happy to talk to anyone or help you out with any problems I could. That's about all I can think of now...Let's move onto the next part.

1a. How I practiced SE online and IRL

Before Runescape got their trade limit I phished ever since 04-05. So I have been online SE for at least 5 years now. Tons of practice and experience. Also not too long ago I acquired Ticketfast tickets from Ticketmaster which is the kind you print off. I sold multiple copies of those using my SE skills. I always try to never get nervous. Swatted my neighbor not too long ago. Was quite funny. That could be a form of SE in some terms.

2. Requirements

Well the requirements are pretty obvious.

1. MSN Messenger with an E-mail that has preferably the name you use and/or a birthday year.
(e.g Stepph_love92@live.com)

2. Decent knowledge about the internet/computers

3. Not having DownSyndrome or an IQ of 30.

4. Thinking on your toes(Being fast but being smart)

5. Fake pictures/Name/Possibly webcam or manycam?

6. Always be behind a vpn/proxy (not a web proxy like hidemyass or something we talking socks5)

7. Have patience.

8. Last but not least...A way for them to pay you.

2a. Some suggested websites and usernames

First off if you don't have a vpn your going to need one. I stay more protected than people who practice abstinence. Hotspot shield (nooby but free), Proxifier, and Miranda IM.(It's a IM client that can sign in to any messenger and it is safer IMO)

Hotspot shield is a vpn i guess you could call it. Assigns you an IP address hiding your real ip. You can download it here: <http://hotspotshield.com/>

Proxifier is a program that allows network applications that do not support working through proxy servers to operate through an HTTPS or SOCKS proxy or a chain of proxy servers. You have to get your own socks 5 to use with proxifier which I'll show you how below. You can download here: <http://www.proxifier.com/download.htm>

Download Miranda IM <http://www.miranda-im.org/download/>

Getting Socks5.

The free way: Go to <http://sockslist.net/> and scroll down were all the ip's and ports are. Look towards the right at types and look for 4/5 or 5. I prefer using USA socks because some sites translate the words from your location using your ip or you will be completely blocked from some sites cause of the country.

The paid way: <http://buyproxy.ru> is a site like sockslist.net but you have to pay to search for the socks so they are better than the ones you find on sockslist.

[img]<http://img686.imageshack.us/i/sockslist.jpg/>[/img]
[img]<http://img689.imageshack.us/i/proxifier1.jpg/>[/img]
[img]<http://img14.imageshack.us/i/prox2.jpg/>[/img]
[img]<http://img138.imageshack.us/i/prox3.jpg/>[/img]

Okay now that VPN's/proxies are out of the way let's move onto chat rooms and user names. <http://teenchat.com> is the best site to use IMO because you can't get banned and there is always a lot of weird ass people there. Chat-avenue and other sites like that I always end up getting banned. Use a username that either is like Ashleyfrom92 or an actual ASL(Age, Sex, Location) 17/f/aussie for example. Usually soon as you enter, depending on the time of day, you'll get a lot of whispers/private messages. If you want to reply to the whispers you type "/msg (the yellow number next to their name) [message here] without parenthesis and brackets of course. I use the story of "i need to get away from my bf he's really abusive and mean and is trying to find me right now i'm really scared!!" Most guys will wanna fly you out to them or something to get you out there so they can do their weird pedo shit. When they offer flights that's good. You can tell them something like "my uncle works for one of those airline companies and can get me cheap tickets" and they will probably want to save money and you can have them send it however you do your payments.

2b. Pictures you can use

<https://hackforums.net/showthread.php?tid=474354> Is a great thread by ??? with lots of pictures you can use. This thread also <https://hackforums.net/showthread.php?tid=261969> which was posted by kazu. Credit goes to them for posting and uploading.

3. How to talk

Well, you obviously don't want to talk like a guy and use words such as "bro, dude, nigga,etc.." try not to cuss as much either or do not get mad!! Always stay calm. Control yourself kids. Use smileys, be nice, sound like a female and nag. (Lol jk don't nag...funny though :p) Don't openly offer to send nude pics or even any pics of you period. Let them ask cause trust me...they will.

3a. Reading the person by their actions/way they talk

This may be hard for some people but I will try to explain it the best I can. Okay so if your talking to them and they keep wanting you to do sexual stuff and ask lots of sexual questions. They will most likely do anything to be with you. Especially if your acting as 16 or 17. If they are just having a nice chat with you and don't ask that type of stuff they are into you but they will be a little bit harder to convince. This is where you can turn it a little sexual if you'd like it helps. I am sorry if this section is shitty but It is really hard to explain.

3b. Getting the payment

Most people who E-whore prefer to use paypal as the method and say it belongs to their brother. This is a really dumb idea In my opinion. It's okay if you can't do any of the higher up stuff which I'll explain. The way I get payment is drop spots or even western union but I don't use any real info and I will usually have someone else pick it up for me using their name. That's just how I prefer money. In my hand not on a website.

3c. Deciding to stay/find new

Okay after they have payed a first time depending on what they got you. Decide if you wanna stay and get more money out of them or if its on to the next one. If they gave you money for a flight then it is obviously time to find a new victim. E-whoring/SE takes time...have patience.

3d. Blackmailing

This is a serious method for brave/confident/sneaky people. It also is the way to make the most money but very dangerous. You can blackmail them into coming to your house and taking a picture of them at your door. Don't answer they will eventually leave. Or you can talk to them right there saying you have chatlogs/picture and you will call the police right now and turn it all in unless they pay you. Ask for a large amount such as \$500+ because Anyone would rather pay \$500 than be caught doing this and their family finding out and them having 1+ year in jail. Be creative on this one and be very careful if you attempt to do this.

Well that's my guide I hope it helped you guys with understanding this. If you have any questions please do post or PM me and I will help you out.

Thanks
Felikss

Even if this is the 100th ewhore tut you can atleast say thank you for the tutorial. He put his work and effort in this tutorial but you're just bitching him off. I know that there are too many ewhore threads but atleast he does something for the community and help us out.

Thank you for this tutorial. it's very helpfull and it's well writen. I started SEing from the beginning i heard about it and i'm still improving. One day I will write such a succesfull tut as this one.

Or instead of making some dumb excuse of how the PayPal account belongs to your brother, simply add a new email address to your PayPal account, the email address you use to e-whore with. ?
