Thread: [\[Dawn\] C++ course](#)

Remix - April 1, 2016, 12:21 pm

[img]http://hackforumswiki.net/images/1/18/Dawn_%28Banner%29.png[/img]

Next week a C++ course will start in the Dawn subforum.

During this course I will teach the fundamentals of C++ and some more advanced topics as well.

How will it work?

Every week I will post a lesson in the Dawn subforum. For example in the first week I will teach you what you will need to start with C++ etc.

At the end of every lesson there will be a homework. You have one week to do the homework. I will grade the homework and tell you what you could do better and what is already alright.

Note: If you fail to accomplish the homework you will be removed from the course and the group.

That is everything you need to know now.

How to apply?

Fill out the following form and post below:

Code [color=#FF6347][b]How old are you?[/b][/color]

[color=#FF6347][b]Why do you want to take part?[/b][/color]

Peptide - April 1, 2016, 12:23 pm

How old are you? I am 15, but age will not matter since I am mature and will finish the homework to my best abilities.

Why do you want to take part? I want to take part of a student, I will be very opened and listening at all the posts you make and also studying. I hope you will take me on as a good student.

Infinity. - April 1, 2016, 12:26 pm

How old are you? 21

Why do you want to take part? I am a low level guy doing engineering in ece and I primarily work on embedded systems most of my time. This grew my interest a lot in C/C++ and assembly. I constantly look forward to expand my knowledge weather its by reading basic tutorials again and again or watching a youtube video, read the book that I have. I like and appreciate what you are doing, and hoping I get to learn a lot from you. Looking forward for this.

.Cherry - April 1, 2016, 12:29 pm

Just a question before applying how long will the lesson be for? Will I have to do homework for 1+ year or?

Remix - April 1, 2016, 12:29 pm

(Apr 1, 2016 12:29 PM).Cherry Wrote: [\[CITE\]](#) Just a question before applying how long will the lesson be for? Will I have to do homework for 1+ year or?

No, just a few weeks

.Cherry - April 1, 2016, 12:31 pm

(Apr 1, 2016 12:29 PM)Teh Remix Wrote: [\[CITE\]](#) No, just a few weeks

Is this for beginners or advanced users?

Im only familuar with C#

Remix - April 1, 2016, 12:31 pm

(Apr 1, 2016 12:31 PM).Cherry Wrote: [\[CITE\]](#) Is this for beginners or advanced users?

Im only familuar with C#

It's a beginner course

.Cherry - April 1, 2016, 12:36 pm

How old are you? I'm 15 turning 16 this year

Why do you want to take part? I'd like to be a part of this because I want to learn C++ but I never really got into it I see this as a great way to get started and also help in future with school. Thanks

Kedox - April 1, 2016, 1:27 pm

So we get accepted into dawn?

Anyways Remix my g

How old are you?

15

Why do you want to take part?

I trust you will help me start to learn c++ properly (I don't want to be taught by a noob).

So yeah, will be a good opportunity to start c++ off, and it will finally be something to force me to learn it.

Social Engineer - April 1, 2016, 1:31 pm

Would you recommend this course for a complete beginner or would you prefer the applicants to have some knowledge prior to this course?

Remix - April 1, 2016, 1:33 pm

(Apr 1, 2016 01:31 PM)Social Engineer Wrote: [\[CITE\]](#) Would you recommend this course for a complete beginner or would you prefer the applicants to have some knowledge prior to this course?

Both could take part in it

There's always something to learn

?Shatter? - April 1, 2016, 1:34 pm

How old are you?

20

Why do you want to take part?

I want to take part because, I'm interested in learning C++ as well as push my self to new limits all the time!

Thank you

dopepizza - April 1, 2016, 1:38 pm

How old are you? 15, 16 this year.

Why do you want to take part?

I have been coding in languages like c# and VB, but c++ has always been really interesting.

I want to take this course so I can learn more about programming languages.

I put a lot of time into programming everyday. I really wanna learn C++ as it is a low level, object orientated programming language.

D?edalus - April 1, 2016, 5:01 pm

How old are you? 17, 18 in a few months

Why do you want to take part? I've recently began taking courses on teamtreehouse.com in the language Java. Programming has always fascinated, I guess it's just the fact that you can create anything with just your fingertips that amazes me. Simple things such as setting a string via cmd input and then printing that string back is really cool to me. C++ seems like a really good language to get into.

I've been offered an internship at my brothers work, all I have to do is get some programming experience under my belt. It's mainly in Java, but C++ can't hurt to have a base understanding of.

Epicur - April 1, 2016, 5:09 pm

How old are you? 20

Why do you want to take part? I have coded in C before. I want to learn new languages and get to master them, if you provide free guidance and you know your stuff, why not? Let's learn C++!

ra1d - April 1, 2016, 5:20 pm

How old are you? 20

Why do you want to take part? I've literally just planned that I will begin learning C++ in this next week, no joke. It's been something I've always wanted to do, but I felt like I needed to learn another language at first. As of right now I am a ASP.NET webdeveloper (3 months left till graduation.)

0x7FFDF000 - April 2, 2016, 12:56 am

How old are you? 18

Why do you want to take part? It's a language I've always wanted to learn, however never got the right direction nor system for. I'd love to take part in this, and would do whatever is told :)

Tromboner - April 2, 2016, 5:17 am

How old are you? 16, 17 in the coming months

Why do you want to take part? I've always interacted with technology for a long period of time and have always wanted to learn how to make things in code. I've tried all the other websites and they just haven't worked for me personally. I think this more personal approach will make it better for me to learn and to make me stay committed to C++ for the duration of this course.

Neos07 - April 2, 2016, 5:20 am

How old are you? 18

Why do you want to take part? As I started learning it some time ago, but I didn't complete, so here is another opportunity for me.

SIM-82498 - April 2, 2016, 5:38 am

Do we gotta be current Dawn members to apply? I'd love to learn.

Remix - April 2, 2016, 5:38 am

(Apr 2, 2016 05:38 AM)Dervie Wrote: [\[CITE\]](#) Do we gotta be current Dawn members to apply? I'd love to learn.

No, everyone can aply

SIM-82498 - April 2, 2016, 5:39 am

Well, in that case..

How old are you? 23

Why do you want to take part? I'd love to be a part of this course as I've been looking for that initial push to learn coding and I feel like this would be the perfect place to start. I learn better with some sort of mentor. I've got no prior experience with coding, but I'm a quick learner. I'm able to read basic codes, so I'm able to sort of assume what each function does, etc. I'm hoping to learn more and be able to code independently from this.

SIM-1472133 - April 2, 2016, 6:31 am

How old are you? 18

Why do you want to take part? It would be nice to learn something new.

Closed User - April 2, 2016, 8:59 am

How old are you? 21

Why do you want to take part? I want to measure my C++ knowledge & get rid of bad habits
I'm familiar with the language so I have high expectations on the teacher

WOLGA - April 2, 2016, 10:24 am

How old are you? 17

Why do you want to take part? I would like to become proficient in a advanced language

Unknown - April 2, 2016, 3:14 pm

How old are you? 17

Why do you want to take part? I've been programming for a couple of years now (mainly in .NET but, I had to take an ActionScript 2 course in university) and it seems that I can't learn C++ (in particular) on my own for some reason. I think with the structure of a course, I could better excel (compared to trying to learn it on my own).

Hash G. - April 2, 2016, 4:30 pm

How old are you? I am 17 years old.

Why do you want to take part? Well next year I am attending a private coding school and the main subject of the first year is C++. I would like to go ahead and start learning it now so I can overcome difficulties easier. I already have some basics of C++ but I would like to start again from scratch so I can get a good practice.

zeroday - April 2, 2016, 5:18 pm

How old are you? 16

Why do you want to take part? I'm currently on a Software Engineering course in college where we study Java, HTML and CSS (next year we do JS, PHP & MYSQL). I already know HTML and CSS and I've messed around with the basics of PHP and MYSQL and I've managed to learn the basics of Java (best in my class even though they've been doing it longer (on a high course)). I would love to learn even just the basics of C++ to further expand my knowledge in the area that I will hopefully call my career path (I would be more than willing to set aside some time during the week to read threads and complete homework).

?Citizen Z / Napalm - April 3, 2016, 3:43 am

How old are you? 15

Why do you want to take part? I've been learning VB.Net, C# and similar for a while now and I want to expand my coding knowledge because I really enjoy real life coding problems and I want to code a botnet some time

Sahaj - April 3, 2016, 4:37 pm

How old are you?

I'm 17.

Why do you want to take part?

I'm not new to C++, I know the basics of it. I'm always eager to learn. For the last 5 months, I've been directing myself more towards learning Linux and System Administration, and I really want to get back into C++. There is nothing better than being around people who're learning the same thing as you are, and you can discuss problems and solutions with them and help them or ask for help. That's the main purpose why I want to join. All the C++ knowledge that I have right now, is self taught. But I'd love to be around people and learn from them. I'm also familiar with Python and C# a bit.

Brendan - April 3, 2016, 7:28 pm

How old are you? I'm 17.

Why do you want to take part? I've mainly programmed in Java for awhile, but I'd like to expand my knowledge to other languages, and what better than C++, right? I also learn better when I actively have assignments that I can complete to help test myself.

Bean Dip - April 3, 2016, 7:30 pm

How old are you? 20

Why do you want to take part? I've been doing hardcore web dev for the last 2 years. I need to break away a bit and start getting into some real languages ;) I've used C++/C#/C before however I'm hoping this will work as a refresher course!

Toxin - April 3, 2016, 7:35 pm

How old are you?

22

Why do you want to take part?

Well im a computer programming major at a 2 year school I dont know much but i feel i could learn from this course

Shoe - April 3, 2016, 8:06 pm

How old are you? 17.

Why do you want to take part? I've been coding on and off for years. I've never truly settled down on one of them and everything is kind of a shit storm with what I know and what I don't know. Often times I find myself stuck at points with different languages like "okay...so well....what do I do now? I can do any number of basic things but there's no real application to this..." - those situations are incredibly frustrating. With a bit of pushing from Goodies I've been more and more working on Python but C++ is in the back of my mind. Really interested in seeing what everything's all about; I can get a basic "hello world" down but that's kind of the extent of my C++ knowledge.

Heart - April 3, 2016, 9:39 pm

How old are you? 17

Why do you want to take part? I want to learn how to make program.

Audio - April 3, 2016, 9:51 pm

How old are you? 16

Why do you want to take part? My brother is a website developer and would like to show him me learning some stuff. Also would like to learn as it would come in handy as I am planning to start a business and of course will need a web page.

Infinity. - April 4, 2016, 11:29 pm

A quick question, will you be selecting specific people or all? Also, when do you commence?

Remix - April 5, 2016, 12:52 am

(Apr 4, 2016 11:29 PM)Infinity. Wrote: [\[CITE\]](#) A quick question, will you be selecting specific people or all? Also, when do you commence?
I will select just a few people tomorrow.

Sahaj - April 5, 2016, 12:53 am

(Apr 5, 2016 12:52 AM)Teh Remix Wrote: [\[CITE\]](#) I will select just a few people tomorrow.
Awesome, good luck everyone! :)

?Citizen Z / Napalm - April 5, 2016, 12:55 am

(Apr 5, 2016 12:53 AM)Sahaj Wrote: [\[CITE\]](#) Awesome, good luck everyone! :)Well, I better start watching YouTube tutorials

SkullCandy - April 5, 2016, 1:35 am

How old are you? 17

Why do you want to take part? Because I would love to know C++, I have tried coding languages in online courses but I feel like a course like the one you are doing will be much better - i like the whole idea and I feel like I will learn well this way.

Mindsweep - April 5, 2016, 1:37 am

How old are you? 20

Why do you want to take part? I've learnt other languages over the past 4 years. These include C#, Java and PHP. I never really got the time to invest into C++ because it wasn't a language that was usable for what I was doing at the time.

Stashyy - April 5, 2016, 3:53 am

How old are you? 19

Why do you want to take part? I want to learn the basics so I can get familiar with the language.

~Jay~ - April 5, 2016, 7:33 am

How old are you? 20

Why do you want to take part? I'd like to brush up on C++ without dropping \$1600 on taking it at my Uni

Vxncent - April 5, 2016, 7:43 am

How old are you?

16

Why do you want to take part?

I have knowledge in web-design (HTML, CSS, JS) and back-end server-side development for the web (PHP, SQL) but want to expand into programming more, and gain a knowledge of the C language to expand my portfolio and skill set. I would love to be part of this course and believe that you could teach me what I need.

Thank you.

X00AD - April 5, 2016, 11:03 am

[img]http://hackforumswiki.net/images/1/18/Dawn_%28Banner%29.png[/img]

How old are you? I am at the age of 18, turning 19 next month.

Why do you want to take part? Currently learning C++ & ASM for gamehacking, so any kind of course is welcome.

Kind Regards,

Xangu. ?

Im gone brah - April 5, 2016, 12:51 pm

How old are you? 18,

Why do you want to take part? Figured why not, I'm fluent in a couple of languages but c++ is not one of them. I've worked with C, bit c++ and c# before (If talking about lower-medium level languages). I also dabbled with some assembly. Just a fun experience I guess?

Gr3yWolf - April 5, 2016, 12:58 pm

How old are you?

I am 17 years old.

Why do you want to take part?

I would like to take part because I am interested in learning C++, from start to finish. I would like to gain that knowledge and it will be something to do while I am at home.

My Skype: DylanUK08

The Scarabian - April 5, 2016, 12:58 pm

How old are you?

Fourteen.

Why do you want to take part?

I'm interested in computers and I started to teach myself C++ a while back. I didn't get far, but I'd like to try again. I also want to be able to actually do something.

Kosmos - April 5, 2016, 1:03 pm

How old are you? 20

Why do you want to take part? I will be attending college in the Fall of 2016 for Computer Science and Engineering. Programming/coding is a must for coursework and this won't hurt to learn prior. I could heavily benefit from this. I won't slack, nor take advantage of just being in the group. If I learn C++, I'd probably feel obligated to pay you guys after the fact.

Sakuto - April 5, 2016, 1:27 pm

How old are you? 21

Why do you want to take part? I'm a professional C# developer and I want to take a look at C++ (plus I want to laugh at your Cpp level <3)

Six Double 0 - April 5, 2016, 2:08 pm

[img]http://hackforumswiki.net/images/1/18/Dawn_%28Banner%29.png[/img]

How old are you? 17

Why do you want to take part? I'm eager to learn the fundamentals of C++ coding. I feel like it would be a very productive skill to achieve and I plan on learning it any way I can. I would love to be a part of this course because I need a hand in guiding me the right direction. Hopefully you will give me this opportunity. ?

Viktory - April 5, 2016, 5:27 pm

How old are you?18

Why do you want to take part? I do websec mostly and I would like to get thorough with cpp before univ starts.

Telstra - April 5, 2016, 9:39 pm

How old are you? 19

Why do you want to take part? Always wanted to learn more but never had the motivation to dive into it solo, I like working in a group environment. This seems like the perfect opportunity to do so. I will be dedicated to this course/class and will do my best to help all other successful applicants, as well as Hack Forums in general in their learning experience.

I am not a complete deadshit when it comes to coding, I know the extreme basics. This is the opportunity I am looking for to expand my horizons, especially when coding is becoming a major role in employment.

Ugly God - April 6, 2016, 12:40 am

How old are you? I am 18 years old.

Why do you want to take part? I would like to learn more about how to create software. It is very profitable and not only that then I could help the forum more by giving away software I make and it would also help the dawn group as I will develop software for free for dawn members once I am in.

loony - April 6, 2016, 12:44 am

How old are you? 25

Why do you want to take part? Would love to hear what you have to talk about, and touch up on some stuff I may not know.

Remix - April 6, 2016, 8:44 am

The recruitment is over.

Those who got accepted will receive a PM soon.
