Damn, it feels good to have somewhere to brag without looking ridiculous!

Rick Sanchez - April 2, 2016, 10:07 am

Car looks sick af man!!

When I get a good steady job for some time I want to buy a tesla. I believe by the time I have the money for the model 3 they will probably have a cheaper car. I'm hoping at least. haha

DuguWudi - April 2, 2016, 10:09 am

US\$35k correct?

It's in the news, 24 hour preorder exceed 100k.

AliveAgain - April 2, 2016, 10:09 am

I'd get my tesla matte wrapped white or black.

Haha, thanks bud!

About getting a steady job; you won't need that. I plan on soon teaching people how to reach millionaire status and you won't even believe how easy it is once I lay the facts down for you. Everyone who I teach is going to be successful and I don't want anything back from it, just the experience.

10x10000 is the way forwards.

???? Shana - April 2, 2016, 10:20 am

Damn op nice. Was looking at the car earlier and thought it looked pretty sick.

There's about 25 p90d's in my neighborhood, and the best ones are the metallic red. Black or white looks WAY too plain IMO. My friend has a dark blue one which looks pretty slick too.

MysteryHF - April 8, 2016, 9:56 am

I'd rather wait til the next Tesla model comes out instead. :) Cool car though.

J. McCarthy - April 10, 2016, 6:44 am

I'm pretty stoked to see nice cars like this or the CLA being offered for such cheap prices. Opens the market for a nicer looking and driving car to those who otherwise couldn't experience or afford it.

I've never been in a tesla or tesla s but I presume it drives similar to an S class Mercedes which is heavenly.

Very cool car op, hope you enjoy it!

YUNG BoY - April 10, 2016, 12:37 pm

Very nice car, but buying new cars is a waste imo since they drop several thousands in value the second they roll out of the dealership.

iSnitch - April 14, 2016, 10:35 am

What is so special about tesla?

Not hating, they are rare in europe so i wonder.

Mr.Khan - April 14, 2016, 11:50 am

Car looks sick af!, Great car!

?Boom - April 14, 2016, 11:53 am

same, haha only 17 years old but would def help in the future.

Fire - April 14, 2016, 11:58 am

Car is nice, however the interior looks pretty dull and empty from what I've seen in the test drive videos. Are there any official pictures of the interior?

Chicago. - April 14, 2016, 7:41 pm

Usually I'm not big with electric cars but I'm really tempting to pre-order this. It's such a beautiful car for the price.

Strictly - April 15, 2016, 2:25 am

Thats tesla looks dope! Congrats.

bismark - April 15, 2016, 9:11 am
