Mizushima, Tsutomu is the director for this series. He has also directed Another. so if you enjoyed Another, you'll probably want to check this out.

Synopsis:

A shady bus tour of young men and women are headed to an elusive village called Nanakimura. A destination where people can partake in a utopian existence, free of the world's obstacles... or so goes the rumor.

Heading deep into the mountains, the bus is carrying 30 different individuals, each harboring their own expectations and troubled hearts...

What they had arrived to was an uninhabited village with lingering, faint scents of life and it was falling apart.

Just what is the secret of Nanakimura?

Trailer:

Op:

With the first episode airing yesterday, I thought i'd go ahead and make a discussion thread for this show. The first ep was very strange, so I've got hopes for this show to do good.

First episode was pretty creepy.

Yeah, no kidding. I'm wondering how the series is going to pan out though. With such a huge cast, it's a given that there won't be proper screen time for all of them. But I'm in it for the mystery side of things.

Can somebody please fill me in for this with spoiling much.... ?

Just watch the first episode, reading a description will ruin the creepy vibe.

Crazy kids who are depressed about life trying to go an isolated village to escape the harsh reality. Ended up in some weird twisted village, and things are about to go crazy. ?

Just realized the director is Mizushima, Tsutomu. Who has also directed Another. This will be a fun ride.

CorrosiveBlueberry - April 3, 2016, 4:17 pm

First episode was really good in my opinion feels like many various random scary movies I've seen on TV with the same or similar premise such as a bunch of online people meeting in person to commit mass suicide ; differs a bit but reminds me of this show. Can't wait to watch whole series

Chips Ahoy McCoy - April 3, 2016, 6:02 pm

Supposedly there were a few death flags in this episode. I didn't really notice though, maybe i didn't pay attention enough? No idea. I'm sure we'll see a lot of death soon though.

I think eiqt explained in an earlier post. But basically, people want to escape from this world by going on a "New Life" tour. Which i'm assuming means people are going to be killed.

?????? - April 5, 2016, 6:07 am

Just watched the first episode, creepy songs sung on the bus. I'm liking the vibe I'm getting from it, and so far, the art has been pleasing. Dark colours everywhere.

Lone - April 5, 2016, 11:29 am

I don't normally like these types of shows of people just getting murdered (if that's how this is gonna go) but I will give it a shot.

Spoiler ([Click to View](#))Anyone else like WTF when they felt bad for the chick throwing up on the driver who was gonna kill everyone!?

I was so happy when that happened. The driver was a total asshat imo.

Love these ones... I am a bit of a sadist when annoying characters start to die.

The most inconsistent plot i have seen yet, but it makes it all the more interesting because you

have no idea what is gonna happen.
Spoiler ([Click to View](#))
Too bad nothing happens past ep 4.

Chips Ahoy McCoy - June 19, 2016, 3:57 am

Stopped following weekly after the second episode. Is it worth starting back up again? I see it's ranked #6000 now.. o-o Did it do that bad?
(I'd read your opinions above, but possible spoilers.)

Chips Ahoy McCoy - June 19, 2016, 1:45 pm

Lol, just remembered this is the show that had Soy Latte as a character. kek

Deany - June 19, 2016, 1:51 pm

Another was a lot better just saying doe

wintek - June 20, 2016, 4:06 am

thanks tbh i didn't see the 1st ep i'll make it on the list .

Sorun - July 8, 2016, 3:20 am

average/10 imo
shit/10 if you factor everyone elses

I can understand characters not getting fleshed out backstories due to budget/time, but they made it seem like a lot of these characters would be more then filler.

Love when series do this. Soy latte was a handle if I remember correctly. You'd get more of a laugh out of GATE. The princesses actual name is pina co lada and one of her guards is Beef.

Wtf lol. that's amazing. And just like that, I gained respect for Gate without even watching it.

Edit: JESUS CHRIST. This show did soooooo bad.

Black Dahlia - July 8, 2016, 9:32 pm

This shit was by far the 3rd best thing to air this season, the only way you could count this as average is if you don't watch seasonal shows.
