Thread: [Razer Blackwidow Tournament edition](#)

Niek - April 3, 2016, 4:57 am

What are the difference from a tournament edition and a regular one?

Is it only the numpad or is the regular one better?

Is the tournament edition less clickyer or not?

Please tell the difference.

What is the "regular one?" The Tournament Edition is a 10KL keyboard, the others (non-Tournament Edition have numpads. Every keyboard in the line but the Ultimate Editions have the same assortment of switches.

Preference is highly subjective but the Ultimate Edition keyboards with Cherry MX Blue switches will be better.
