Thread: [I want a working intel hd graphics driver for my intel hd 3000](#)

kmz22222 - April 4, 2016, 2:44 pm

Look so i have intel hd 3000 graphics card but i don't have the driver so currently my laptop thinks that i have a stupid chipset.

However,i searched for a working intel hd graphics 3000 for windows 7 ultimate 32 bit and resulted in a total failure.

If you can find such a driver for me,don't hesitate and please help.

Note:Please don't give a download with the extension .rar because when i use winrar it crashes immediately.

32 Bits

downloadcenter.intel.com/download/24970/Intel-HD-Graphics-Driver-for-Windows-7-8-8-1-32bit

Left side, download options are .exe and .zip

You should reinstall your winrar though, it's really usefull.

Tried it.

Got an error saying: Your device doesn't meet the requirment to install this software

Dell

You Just Got Sarged - April 4, 2016, 3:01 pm

What is the cpu in your dell? What is the brand and model of your dell?
