Introduction :

Welcome to The Brotherhood Social Media recruitment! With Cryptic's permission, I've decided to run a little sector where we grow and monetize social media. CPA seems to be all the rage right now and it's very hard to get started if you don't have the proper knowledge or tools. This group of 10 will help each other grow and monetize Instagram and Twitter accounts FROM SCRATCH

Requirements :No open or unresolved scam report.

Must be able to follow The Brotherhood Handbook.

Must be a member of HackForums for at least three months.

Must not have a bad reputation within the HackForums community.

Each applicant will be reviewed by Cryptic. If you are not in good terms with him, don't bother applying.

Application :

Be sure to be honest in the application. I'm not specifically looking for social media gods as much as I'm just looking for helpful, fun and dedicated members to start earning some profit online. Also, an "Investment" of \$10-\$15 may be required to more easily grow these social media accounts. There are ways around it but will require more work, with that being said, Apply!

Status :

8/10 members recruited.

I want you all to see this as more of a fun experiences to meet some new people and work on some projects you can be proud of on the side. I do want a somewhat serious attitude when it comes to succeeding with our projects but in general I just want everyone to respect each other, enjoy their time, and make some money. Goodluck with your application!

[\$(5)] - April 6, 2016, 12:46 pm

Name & profile link: [\\$\(5\)](#)

Age: 19 years old.

Any past experiences with any social media: Yes! I previously not only ran my own deck but I also have provided a countless amount of free services in the Marketplace's Free Services & Giveaways section. On top of previously owning a deck, I also had a reseller panel setup on a seperate forum to where users were able to deposit \$X.xx and purchase as many social media services as they require. A lot of people used this service to resell and or boost their personal accounts at an extremely discounted rate.

If so, what platforms: These giveaways were mainly Twitter and Instagram Likes/Followers and occasionally I would assist people with Vine and/or Pinterest. The Deck I previously owned was for Twitter and the reseller panel included Facebook, Twitter, Instagram, Vine, Pinterest, and Tumblr bot accounts.

Are you willing to help other members with their projects: Most definitely! I thrive in customer service and team work. Nearly every position I've accumulated whether remotely from home or in a office environment in my town has required not only team work but dedication, loyalty, kindness, and honesty.

Currently managing any accounts: I was previously working on cooking some Twitter accounts and growing them by simply posting from time to time (which worked) but I've since not done much with them. I've actually recently logged in to them and plan to start them back up soon.

Any extra skills worth mentioning: Nearly every position I've accumulated whether remotely from home or in a office environment in my town has required not only team work but dedication, loyalty, kindness, and honesty. I am also very experienced with Server, Project, and time management.

Why should you be accepted: I feel as if I should be excepted because I would be a great asset to The Brotherhood as a whole but especially the Social Media Growth Sector in which I am currently applying. I have all of the aforementioned skills plus more. I am also extremely friendly and love working on things with others. I am also very motivated to earn money. I know many people are, but my motivation strives from once being at the bottom myself. I continue pushing every day to be better and better and would love to be able to provide The Brotherhood with both my positive mindset and eagerness to build something great.

I appreciate your consideration and you providing me with the ability to apply and become apart of something greater than myself.

Any past experiences with any social media: I used to run a stat Instagram but it got scammed and I quit social media shortly after, but I'm trying to get back into it. I also used to run a Twitter and participate in a few decks. :)

If so, what platforms: Instagram, Twitter (just a little bit of knowledge), Snapchat

Are you willing to help other members with their projects: Of course, why else join a group?
Currently managing any accounts: Right now I'm just working on growing my Snapchat and starting off with CPA on Instagram.

Any extra skills worth mentioning: Not really, I'm hardworking and honest.

Why should you be accepted: I could benefit others with how well I work with them. I'm always looking to help out if anyone needs it and when I have a task that needs to get done I make sure that I do it to the best of my ability. If someone asks me something I don't know a lot about, I'll answer to the best of my ability and send them in the direction of someone that knows more than I do. :)

*I normally do all fancy applications, but to be honest..

I feel as if it's not needed. Your skills in social media growth has nothing to do with how you can align your text on hackforums.

Name & profile link :

[#MOBsTER](#)

Age :

I am 16 years old.

Any past experiences with any social media :

A ton, mainly Instagram. I have ran accounts from 10k to 160k.

Not that huge, but pretty nice.

I never owned my own account however, I just contacted people with accounts that had a low activity.. Shown them my past work, and proof I've grown accounts and the activity. Then I run it for them, for a small percent of the money made in return for growing their Instagram.

If so, what platforms:

Instagram.

Are you willing to help other members with their projects :

Of course, I've helped a ton of people over HackForums and their accounts.

I also made a huge tutorial about how to run your social media here:

Currently managing any accounts :

No.

Any extra skills worth mentioning :

No, I am applying for social media growth sector.

Therefore, all the skills I should mention are in social media growth! :P

Why should you be accepted :

This application is not fancy by any means, I always have made them fancy, but now. I just don't get the point. If you have a skill, you don't need a fancy application to show it.

I have grown accounts that were at 20k and barley got 700 likes back up to 34k and reaching 2.5k-3k likes and 500 comments on average in around two weeks of time with no investments in shoutouts or s4s's etc.

There's just so many little things people forget which make a huge difference in your account, which I have. ?[/align]

Oh man this has my name written all over it. I would love learning more about Insta CPA been trying it out lately.

Name & profile link : [The JOker](#) <--- Click for profile

Age : 16

Any past experiences with any social media : Yup I work in some weird niches.

If so, what platforms: Well I do Instagram and the funny thing is I did nice Instagrams before I even knew what Niches were. I was like 11 creting follow4follow and comedy accounts and growing them. Sadly I have lost access to those accounts.

Are you willing to help other members with their projects : Yes I see no issues with this

Currently managing any accounts : Nope well I have a Fifa Insta that makes me some money but not through CPA.

Any extra skills worth mentioning : I work hard you can ask the group leaders of my current group if you have any questions.

Why should you be accepted : I like to think I'm likable, of course who can like someone who thinks they are likable. Also because IM thirsty to learn how to capitalize on Social Media CPA

Any past experiences with any social media : Yes, Instagram mostly. Been thinking of moving towards Twitter soon.

If so, what platforms: Instagram

Are you willing to help other members with their projects : Yes, this will be my main goal, to particate with other members, and also getting some help back.

Currently managing any accounts : I've got a few Instagram accounts.

Any extra skills worth mentioning : Currently I'm not focusing on other things than CPA/PPI.

Why should you be accepted : I should be accepted as I'm an highly focused person, which is spending quite a lot of his life infront of the computer, doing this I like, and that's earning money. I started out with CPA & PPI for a month ago, and my within some days of the month, \$150 was earned, and I'm still trying to optimize my knowledge and earn even more.

Would be glad to help people out, and to show things that I know, which others may not know. I'm also active in Skype groups, aswell as Discord & in the group itself.

Thank you for reading my application, and I hope we can get better known.

If so, what platforms: I had 4 Instagram accounts with around 10k followers each. All of them got banned recently and I am currently working, with several other HF members, on getting them back. My personal Facebook/Youtube accounts have a lot of activity because of my filmmaking career.

Are you willing to help other members with their projects : Helping people will help me grow myself, so yes.

Currently managing any accounts : Already talked about this.

Any extra skills worth mentioning : Graphics/VFX/edits/photography/PPD.

Why should you be accepted : Because I fit perfectly into this like a piece of puzzle.

Are you willing to help other members with their projects : Sure, why not. ?

Currently managing any accounts : Yes.

Any extra skills worth mentioning : .NET Programming

Why should you be accepted : I think that when it comes to Social Media section it's definitely my cup of tea. What I've been doing in the internet since 2010 is mostly Social Media related stuff. I can definitely help answering some questions (tech side of Twitter platform for example and Twitter social media marketing stuff). I'm not telling that I'm the best or something like that, because I do not know skills of the other people, so I'm not the right person to judge here. I'm not really into CPA/PPD now, I'm more into selling and promoting actual products via Twitter. ?

Age: 23

Any past experiences with any social media: Yes

If so, what platforms: I have been working with Twitter, Instagram, Snapchat, Facebook, and MeetMe. In the past I also made use of MySpace, when it was popular

Are you willing to help other members with their projects: Yes, I wouldn't mind helping other people with growing their social media bases, we all must start somewhere. Without the help I received when I first started I may not have made it, I know it can be rough when you first get going.

Currently managing any accounts: Yes, I currently have 2 Twitter accounts, 2 IG accounts, 3 MeetMe accounts, and a large page on Facebook. I would love to share the pages, but most of them are being used for private niches in CPA.

Any extra skills worth mentioning: I have great marketing and salesmanship skills, they have helped me get to where I am. The salesmanship skills were developed while working for 2 different companies, achieving top salesman in both, I feel this skill can be very beneficial. It has certainly helped me to develop my pages more.

Why should you be accepted: I am devoted, and driven. I will stop at nothing to make sure I reach my goals, and I can use this motivation not only to help my self, but also to help others with boosting confidence and pages stats.

Michael & <https://hackforums.net/member.php?action=profile&uid=827750>

Age : 21

Any past experiences with any social media :

I've owned several niche accounts on several social media sites.

If so, what platforms:

Facebook, Twitter but most of my accounts are on Instagram

Are you willing to help other members with their projects :

Yes I am.

Currently managing any accounts :

Currently managing 1 account which is in inactive because I've been focussing more on PPD, but

I'm willing to grow several accounts from scratch.

<http://instagram.com/1000freefollowers>

Any extra skills worth mentioning :

I know the basics of Instagram growing, but I'm always eager to learn more about this subject.

I've got several bots to grow Instagram accounts.

Big PPD knowledge, I guess I could use stuff from PPD to use for IG/Twitter growing and use this to earn more money.

Why should you be accepted :

I've been a member of HF since 2011 and I've seen groups come & go, but The Brotherhood has always appeared as a HQ group I wanted to be a part of.

Now with this recruitment open I have the opportunity to join and to learn more about a subject I'm also very interested in.

Also the second reason I would like to be a part of this group is that I'm very eager to get to know more about this subject and to earn money together.

As I said before, I've got several bots that I can share with the other group members so we can all share knowledge and earn.

Yes, I have some experience in the social media area which include marketing, growing, and monetizing. Mostly work with stat accounts. I have built up accounts from a very low following but not too many. I think it would be an interesting endeavor to see what I can do from scratch.

If so, what platforms:

Instagram, Twitter, and Snapchat.

Are you willing to help other members with their projects :

Yes, I am online a good portion of the day and always more than happy to help members with whatever I can and share any knowledge applicable to the current project.

Currently managing any accounts :

Just a small stat Instagram, sold some that I was working on a while back.

Any extra skills worth mentioning :

Just general marketing skills, I don't find it to be too difficult to grow accounts.

Why should you be accepted :

I think I would make a good fit for this team because I work extremely well in a cooperative environment, especially when working in a smaller group about something I like to do. I believe I can bring an aspect of dedication and motivation to the group to help keep everyone focused on whatever their goals may be.

If so, what platforms: IG/Twitter

Are you willing to help other members with their projects : Of course, I do this as a hobby and what are hobbies for other than enjoying life and meeting new people along the way!

Currently managing any accounts : Yes, currently building an IG from scratch, at 2000 followers in 15 days + As you know Romantic, i am about to launch that social media ebook!

Any extra skills worth mentioning : Ive been a general manager of multiple restaurants so i am prophetic with money and people. Being 18 two years ago and being asked to become the GM in charge of EVERYTHING at my Donatos Pizza was a reality check, the stresses i had on me at that young age really struck me into shape. I feel like i have more maturity because i was shoved into a role (i will admit i was unqualified for) that I killed it at! Being the underdog is no uncommon thing to me, but i have always dominated my field!

Why should you be accepted :Im an old breed of HF user, ever since 2012 ive been consistently active on the forums. Everywhere from the lounge to marketplace. I have a dream of starting a currency exchange after getting my dream job and for the first time ever looking for a group, i could have trusted help! I have never in my past 4 years here i have never looked for a group to call home. The Brotherhood would be a great place to call home!

Of course, I'm not the most knowledgeable in social media, but I'll help with what I can

Currently managing any accounts :

Instagram: TunerNoCrust

Twitter: [Soon to be]

Any extra skills worth mentioning :

I'm skilled in marketing and currently I am majoring in marketing and business advertisement. With that being said, I have been taught how to carefully word my sentences and phrases, which I do believe can cause attraction in viewers.

Why should you be accepted :

I think I should be accepted due to the fact that I bring a unique style of thinking to the table. I'm very creative in my thinking process. I want to expand my knowledge in social media and I'm willing to spend as much time as I need to do gain that.

Thank you for considering my application. ?

Name & profile link: [TheChief](#)

Age: 16 years old.

Any past experiences with any social media: Yes, I do have past experiences with growing social media. In the mobile gaming community, I used to grow the YouTube channels and Twitter profile for the gamers and they used to pay me with in-game currency. Recently as well, I started growing Instagrams profiles for people IRL as well as on another forum where I used to sell to a select group of people. I have used most of the popular social networks and know the tricks/tips (if you may want to call it that way) for successful social imprint.

If so, what platforms: As I mentioned above, some of them are- Twitter, Instagram, Youtube, Pinterest, and Soundcloud. I would also like to add that I used to help Facebook ages in gaining likes as well as increasing their reach.

Are you willing to help other members with their projects: I will most definitely do everything that I possibly can to help other members with their initiatives and provide the resources if needed. I believe in team work and I strive to put in my best effort in every work that I am assigned to.

Currently managing any accounts: Currently managing a few OG accounts (not really growing them rn as might be selling real soon) for Instagram and Twitter. Will surely start working on it if I get accepted into the group.

Any extra skills worth mentioning: I am good at making money and idk if that counts as a skill. Also, I am good at co-operating with people and have a friendly nature.

Why should you be accepted: I have not applied to join a group throughout my time in HF until recently when I decided that I should prove my time here worthawhile and be a part of something bigger rather than just being confined to myself and my lil' gang of friends with whom I share my stuff/help them out. I feel like I would definitely contribute a lot to The Brotherhood and I would lastly say that, I would honestly be a good addition to the group as I can always help and do collective team-work with my knowledge and expertise.

I appreciate that you have read through my application and the decision to whether accept me or not is solely upon you. Thanks for providing me a chance to apply and probably be a part of The Hood.

Hoping to wake up to a PM in my inbox from you

GG to everyone

Though I already see about 7 people rocking the user bar so Im guessing they have been sent.

Fiz? - April 13, 2016, 1:29 pm

Glad to be apart of this! Can't wait to work with you guys ?

I'm waiting aswell.

Would be a dream to get into a group that's full of Social Media Growers, as I'm currently growing a few accounts, and also earnings some money through CPA/PPI.

Would share methods, and help out.

Seems like a great place to get accepted info. ?
