I'm a 15 year old who has been doing graphics for around 3 years I first started designing for a call of duty team named Sprint and I have been in love since. I'm best at 2d work and 3d. I'm trying to learn isometric modeling(made my bedroom for first thing.) I have also attempted Illustration which I did not have much success on. Finally I have been getting into photography I know my pictures aren't very well composed and are LQ. But I'm learning. Thanks for taking your time to read this application. Best of luck to everyone applying ?

Looking for more applications. In response to PMs: no, this sector is not required to carry out design jobs (paid or unpaid) for other members of The Brotherhood. It exists solely as a place for creatives to share, learn, and show off their work.

Edit: I'll be reviewing applications more thoroughly later on: keep them coming!

Silent Storm's Application

Why do you want to join the design sector?

I believe I have a lot to offer to the group, in specifics I specialize in clean, thread designs that attract people to my design.

If you take a look at my portfolio linked above, you can see my past work for my customers.

What can you contribute to the group?

Valuable information to members who are new to graphic design or solely want to improve on their work, I can offer free designs to members in the group looking to get their products out there and overall make friends and business partners.

Dear all: applications are being reviewed on a rolling basis, and include studying your profile to determine if you're the kind of member we want. We urge all applicants - in addition to posting their best and most creative work - to maintain activity in the graphics sub-forums.

As always, if you have any questions don't hesitate to send me a message or ask here :)

Zeke - April 11, 2016, 3:57 pm

I would like to join the graphic sector of bh because I really like the group and it's members. I think it would be a great chance for me to learn and grow as a graphic designer. I have been designing since many years and I love it. I am very artsy and I have always loved art in every form. I do casual photography (rookie), graphic designing, digital arts, and the likewise. Currently I am in no group, because I didn't find any group worthy enough of joining but I believe The Brotherhood would be a nice place to fit in and make some new friends and learn and just... have moments.

Pretty old but they work, I guess.

The only designs I have on me right now are the ones on my dA and those I posted on HF.
I lost most of the things I made due to hard disk failure, sadly.

Cheers and good luck to everyone.

Name: DxDaig

Age: 21

Short Personal Statement: I have been doing art and design for a couple of years now so the opportunity to join this group is one I would hate to pass up. Here are some drawings I have done recently.

Also for fun I took inspiration from obnøxious and did a low poly version of their picture.

Accepted, invites pending.

This sector currently has a single spot remaining. Once that spot is filled, recruitment will close. Please be sure to submit your application in a timely fashion in order to avoid missing out. Recruitment will only re-open if members are removed from the sector.

Two spots are currently open.

Portfolio: <https://imgur.com/a/5AqvR#16> <-- I have a little bit of everything there, i do have more work on my PC but i haven't uploaded them yet.

Im best at making animations, that is really my strong side.

Thank you for this opportunity.

You have some seriously nice work, keep it up man.

Incognito - April 17, 2016, 6:50 am

So is this sector only accepting the best of the best, or are you also considering members who are newer to graphics and are serious about improving? Also is this sector only for graphic design or for all art forms (e.g. I do paper crafting)?

I'm a beginner designer looking to really learn and improve. I feel that I can contribute my activity and resources to not only the group, but all of HF.

The OP contains details on all of this.

1) We're currently only looking for the best creatives on HF. This is because we have very limited spots in the group; our sub-forum is not brimming with guides and tutorials because our members are beyond that stage. However, we plan on creating guides to help budding designers out in the future.

2) As stated in the OP, we accept those with a passion for any form of visual art. If your work is good enough and you meet our high standards, then you're in regardless of medium.

I hope this helps, and that you're not deterred from continuing to practise!

About Me:

I've been looking for a group that has talented members who are interested in graphics to share ideas, designs, and other tips & tricks. I've been working on graphics for over 5 years and I have a lot of experience with many different aspects of Photoshop. However, my favorite is signature/tag style gfx, which is primarily what I post here on HackForums.

In a nut-shell, I'm looking for a community of artists who have a similar skill level as me. It's not that

I don't like helping out the lesser experienced, because I do love helping the noobs! However, I would like a more confined community to discuss with. :)
