Thread: [Truth Behind Razor + Kenny Raids INCLUDING PRIVATE CHATS and LEAK INFORMATION](#)

**TheEntrepreneur** - April 6, 2016, 4:37 pm

So there has been multiple rumours of different stories behind the recent raids related to razor crypt. I am providing evidence from the user Kenny/Elios who as you all know has extremely close affiliation with the user Razor (The creator of RazorCrypt). I am speaking on behalf of Kenny in this post as he is a good friend of mine and has asked me to assist him with this as his hf account has 2fa he can not post about it.

This information comes directly from Kenny/Elios. He has unfortunately not had any contact with Razor since the raids have happened and all multiple of his devices have been seized.

Here are a few things that should not be mistaken coming directly from Kenny.

- "1. Me and Razor got raided
2. PayCo.re, RazorCrypt & Razorscanner are most likely not coming back.
3. Servers got shut down."

There is no confirmation of leaks everything as of this moment about db leak is a rumour

XXX:Didn't the razorcrypt db get leaked or something

Kenny: And idk if it got leaked

HERE IS A DIRECT MESSAGE FROM HIM

"Hi guys,

It is ?Elios here.

I can confirm me and Razor got raided.

Tuesday morning (5th of April, 2016) i woke up cause i heard police screaming at the door.

I walked down the stairs, instantly i had to put my hands against the wall and got searched by the cops.

I had my phone in my pocket, they instantly took this from me...

They made me go downstairs into the living room where i had to sitdown.

I sat there a couple of hours with my dad while they were searching my house. (I only had to get up to identify stuff a couple of times)

We were ofcourse being watched.

I won't give all details they suspect me off, as i feel this is fairly personal.

They took my laptop (which contained all details from the payco.re & razorcrypt servers) and my phone.

I have not had any contact with Razor sadly.

PayCo.re, RazorCrypt, Razorscanner & Servatrix all got taken down pretty much instantly.

I'm not sure what is gonna happen now, if you guys want. I'll TRY and keep you up2date.

I do however not have access to my HF account as i had 2FA enabled.

Feel free to ask any questions, i'll try to answer them when i can."

Here are some more quotes from our chat -

[4/6/2016 2:22:10 PM] Kenny: Had cops at my door yesterday

[4/6/2016 2:22:40 PM] Kenny: so, u can guess

[4/6/2016 2:22:48 PM] Kenny: i do not have my pc or my phone anymore

[12:16:47 AM] Kenny: I got raided as i'm directly "associated" with razor  
[12:18:21 AM] Kenny: Im fine  
[12:18:36 AM] Kenny: they took my laptop, an old pc and my phone  
[12:18:45 AM] XXX: why did they  
[12:18:49 AM] Kenny: as im a suspect  
[12:19:04 AM] XXX: is this part of the like razorcrypt things?  
[12:19:14 AM] Kenny: Yup  
[12:19:24 AM] XXX: ahhh did they take offline all your servers and stuff?  
[12:19:29 AM] Kenny: Yeah  
[12:19:30 AM] Kenny: sadly  
[12:19:44 AM] Kenny: RIP Payco.re  
[12:19:46 AM] XXX: I saw I was questioning it and was like daym I'm sure its something  
[12:19:47 AM] Kenny: RIP Everything  
[12:19:53 AM] XXX: didn't you have a backup of the documents?  
[12:19:58 AM] Kenny: On my laptop  
[12:20:02 AM] XXX: Aggghh  
[12:20:04 AM] XXX: Fuck  
[12:20:09 AM] Kenny: ill get my laptop back  
[12:20:11 AM] Kenny: eventually  
[12:20:20 AM] Kenny: payco.re probably wont be re-opened tho

Of him quoting some of the stuff

As of this moment kenny has gone offline i cant ask him anymore questions. He does not know the answer to everything. He is still yet to get devices back or any contact with razor

[12:45:00 AM] Kenny: me too  
[12:45:16 AM] Kenny: I just really want to have some sort of contact with Razor  
[12:45:23 AM] Kenny: just so i know how he is doing and shit  
[12:45:26 AM] XXX: :( If you have any way I can contact him I will  
[12:45:36 AM] Kenny: nah  
[12:45:41 AM] Kenny: thats the thing  
[12:45:43 AM] XXX: Yeh  
[12:45:46 AM] Kenny: there is no way to contact him atm  
[12:45:50 AM] XXX: I know :(  
[12:46:02 AM] Kenny: Im pretty sure his phone got taken as well  
[12:46:03 AM] Kenny: so  
[12:46:31 AM] XXX: :( Daym man sorry I cant help anymore  
[12:46:39 AM] Kenny: haha its fine xD

Its the internet, anyone can run anything, really.

Age is no boundary to knowledge.

Age is no boundary to knowledge. That isn't an excuse. Rather, just because he can does not mean he should.

That still begs the question of why a minor is legally allowed to do this; if he gets charged, to what degree is he liable? Would the parents be complicit because he was doing this on their Internet connection and under their roof?

**Proliad** - April 6, 2016, 6:45 pm

as long as you paid for hacking tools with your personal paypal and used your home internet as a C&C you should be fine /s

Not sure, depends on the laws in Germany.

I don't really agree that kids should be running things like ecommerce software.

Its a bit crazy in my opinion, but I'm not going to judge.

**McDolands** - April 7, 2016, 12:52 am

I 4 real have no idea why people have anything to do with crypters and bot nets on such an open forum

**French Products** - April 7, 2016, 1:19 am

It's a sad day for Razor and his customers.

For all crypter owners : Don't worry guy's, we do't know what made Razor, it's possible made something really illegal. We can't know tihs, and don't forget laws of Germany are not same than other country. For all european guy's, I think we should see on laws forum's for know more how our protect if there raid about our products.

In england at the age of 10 years old you can be arrested and charged. And it will all go down to you.

"I don't really agree that kids should be running things like ecommerce software." I disagree it is a great way to learn and develop. I remember my first piece of software was also a crypter. It was fud runtime and scan time but i only sold one copy of it and that included the source code. Since then i have much developed.

how can they raid someone like that for making an encryption software ?

There could be multiple reasons ranging from false advertisement of the program, misrepresenting its intended use, even things like not filing the right documentation/paperwork, who knows. It might even been a small technical issue that the prosecutor's found and used simply in spite of what the encryption service was notoriously known for. I guess only time will tell (or members, in this matter).

Hello guys.I have read many things about Razor and police the last days but....why did they arrest him? Because of creating a Crypter?? Is it illegal to create a crypter or he did anything else?

**Tigas2010** - April 18, 2016, 2:18 pm

That's why when I clicked update the crypter disapeared!
