Post your "Guilty Pleasure" anime below.

(Definition by Google in case you don't know I guess...?)

"something, such as a movie, television program, or piece of music, that one enjoys despite feeling that it is not generally held in high regard."

Mine would have to be The Perfect Insider. I know a lot of people disliked it, but I just can't seem to figure out why. The mystery had me guessing the whole time, and I still had it wrong by the end of the show. And it blew my mind away. Overall just a solid mystery IMO. But the reviews on MAL beg to differ I guess.

If I'm not mistaken I was looking around for an anime and there was one called Kampher. I read a ton of negative reviews about it, but I was like fuck it and ended up loving it.

The first season of Black Butler was really good besides how homoerotic it was.
