No one buy omni will make/decide on adding new awards.

OP PM'd me about this idea and fuck, I support this to 110%. This is something that I'd donate for, for sure no doubt!

We NEED this.

If we have the Legalize It award we need to have this. Would be so awesome!

Ehh...I sort of dislike that type of thing. I think the Legalize It donations are more appropriate for our website. I also think anyone donating for cancer should bypass me and give it directly (100%) to cancer research (tax break). I like donating to Red Cross and also the Shriners Hospitals. Sometimes I donate to other charities. HF just isn't really the best place to do this.

I've been part of forums with charity awards. Don't really like it. Makes me feel like people want to show-off how good they are. Not my style nor what I want for HF.
