?Opulence - April 8, 2016, 8:45 am

I was playing the division the other night and things got a little wild in the darkzone. I recorded the gameplay and made a youtube video.

Enjoy!

Haha yeah, luckily these guys weren't tanks, no one really shot at me which is good because I have low HP.

Thank man!

The game is awesome, it basically has everything that destiny should have had. I really like the PvP and the PvE is actually really good too.

It's probably the best game I've played on xb1 so far, and that's saying a lot considering I own way to many games.

not bad man! what's your DPS / health? Are you rocking any sets yet?

It doesn't look seem like he has either of the damage sets, but one of his group members had a full Sentry set on. If I had to guess, I'd say around 200k DPS. His damage was roughly the same as I do against my friend with ~60% mitigation.

I need to start recording. It's a lot of fun taking on groups of 3 or 4 players when they're extracting. Just need to take them out before they realize what's happening and use their signatures.

MGhimovic8 - April 20, 2016, 2:43 am

It was my highest kill ep bonus set to rank up faster in the dark zone to get the new vector ;)
My mate use a full sentry set :)

Now I'm playing a mix of striker and tactical, will upload some stuff soon.

Yea this was before the update. no set gear yet.

I now have 2 sentry pieces, and 3 striker pieces. I also have 5 different nomad pieces but I don't like that set very much.

What's your DPS at with those 5 pieces on (before and after)? Having those was my initial goal, but I went with a full Sentry set as they seem to be the best. As long as I headshot someone in the DZ, I can take them out in 5 or 6 shots with a vector.

Dam nice, currently I'm 180k DPS with ACR, 160k with vector, and 80k health.

I also have 30% ignore enemy armor which is great for DZ.

before I had the sets I think I was around 140k DPS and 90k health.

I just need the striker gloves then I'll get another 50% crit damage which should bring me a lot closer to 200k DPS with the vector.

I also need new weapons, mine are only gear score 182.

I'm still running the 182 weapons, but my vector is close to a max damage roll. Need 6 more ranks before I can the new vector.

My build is purely for PvP, so I don't have armor damage / elite damage except for the sentry set.

225k DPS (vector) @ full health
246k DPS @ 2 bars (Unforgiving)
276k DPS @ 1 bar

Sniper is similar, but starts at 170k DPS. With the sentry set, I've hit over 1m damage against elites with a pulse at full health. Highest I've seen was 1.3m (no smart cover).

Sometimes it glitches out and gives me extra damage while at full health too.

Health is 80k with 52% mitigation + 10% all damage resistance from the Reckless gear talent. Only downside is the really low skill power. I only use my heal for the extra 55% resistance (40% from talent + 15% from heal) and damage.

I feel like I should give these guys an A+ for trying.

There was ~10 people at that extraction less than 30 seconds prior to that. I was planning on attempting to kill them all during the extraction, but they shot me first.

I seriously had no idea why they kept trying to kill me.

It was the lower bracket DZ. I can only handle 2, maybe 3 players (4 if they suck) at the higher bracket. It was a rare night where there was a lot of players, but no one with decent gear.

218k DPS + Unforgiving + Sentry

80k Health + 51% mitigation + Reckless (10% mitigation)

The build's based around resistance. Goal is to survive while staying 1 or 2 bars down in health.

I made a new vest before I got off.

220k DPS

78k Health + 60% mitigation + Reckless

Waiting to get a good roll on Sentry's gloves, so I can switch my mask to a decent talent.

MGhimovic8 - April 30, 2016, 3:56 am

Ah ok, nice.

I need tactical gloves so bad:
