Thread: [Watch movies with friends? \(Online\)](#)

aLwaYsOnline - April 9, 2016, 8:44 am

Hi guys, do u know any sites where I can watch movies with friends? with chatting xD ty

<http://rabb.it>

Stream on the server with your own paid Netflix (or other site) subscription. Works great.

That's actually a clever way to use Rabb.it, neat suggestion!

Just suggested that you use a paid subscription-based service because viewing movies for free isn't allowed to be discussed on here.
