It's not the new agar.io cuz it aint agar.io.

It sucks.

It's pretty fun, but still not better than agar.io.

Divined - April 9, 2016, 3:25 pm

I think it is too laggy. If the graphics were like agar.io's maybe it would be better tpo.

agar.io is better and this feels like it's got a little bit of input lag, can't have that when I'm try harding.

Same thing happens when I play the other game. I get so far and am doing so well, then I die very stupidly. Then I get mad and ragequit.

Cokeboy - April 9, 2016, 5:31 pm

It's pretty fun, but not close as agar.io.
