Introduction: EASY EWHORING 2.5

To me E-Whoring is the act of sexual manipulation used for monetary gain. In the E-Whoring world hormones are our best friend. This is a technique where you (the automated system) pretend to be a girl and seducing people to do favors for you!

Hello,

So i received a vouch copy from imperlin and i have read this eBook and here's my honest review.

His grammar was perfect. I didn't find any mistake with it and anyone can easily understand what he wants to say. The method is easy to execute and we don't need much requirements and its very easy to setup and it won't take more than 10 minutes. This method will surely work and will get you a good amount of cash auto-pilot. The eBook will teach you how to setup everything to make it autopilot and imperlin provides pictures wherever necessary to help us setup the method. I would conclude by saying that this method will surely work and it has a lot of potential to make a good amount of money.

Thanks.

I received a vouch copy and I need to say it's worth the money. If you are new to ewhoring or not I am sure you'll learn new things that you didn't know before.

I rate this ebook 9/10

You got to start somewhere :) It's effective and a cheap invest of 10\$ is all you need (the eBook only). Exactly what you need, it hasn't always to be expensive in my eyes.

It's not funny to make jokes like that if you don't get your facts right... After the post where I announced that I will put some earnings into my thread, I did... It's on the top of my thread.

Also, I'm currently on holiday to Egypt so no, I can't post any recent earning cause I have only acces to HF on my phone (I will when I get back from it...). You are always free to add me on Skype to ask me questions like this.

Of course support is available. If you have any questions or you need any help you can always ask me and send me a PM. I understand that a refund policy is increasing my sales, but it is not needed because if you follow the guide you don't need any. Dewds - January 16, 2017, 6:09 am

Going to give my quick review of the method:

Simple, fast. Anyone can do it. No need to install stuff. It is indeed automated but you will most likely need to be around your PC to keep checking it. I've set it all up around 1 hour ago and I already got 10€ (see image: <https://imgur.com/a/oR9jL>). I added my own twist with the traffic source to avoid saturated shit, but considering the nature of the method, you can pretty much go for saturated traffic sources and see if it lands.

Now, regarding the sells thread, I have my serious doubts about those payments, simply because of the >50\$ payments. I personally don't think this is the kind of method that gets you 50\$ per target, but it could allow you to filter potential targets for good cash. But hey, take whatever I say with a pinch of salt, I'm a noob, probably made only 1000€ with ewhoring.

Overall, I'm someone who has bought a fair share of LQ shitty, saturated, Bullshit guides, full of nice designs and a lot of vouches from dudes with a shitload of reputation that have never ever bought the said guide. This thread is no difference, 90% of the vouches are BS, but mine isn't: I think that if you wanna make a buck, and you want to ewhore this is a good method to add to your repertoire. Will you make 200\$ a day with it? Ahmmmm you can, you gotta be smart about it, but unlikely it will happen. Will it be easy to set up? Yes. Will it be easy to make money? Again, use the method smartly and it could not only allow you to make indeed some money with it, but actually help you with good traffic. Do I advise you to buy it? Sure, if you have the spare money, go for it.

Best of luck for the sales Imperlin

Thx for the detailed review. Good to see new members around here who take their time to really do stuff and are actually posting HQ comments.

Like you have said. Yes, it is really possible to generate 200\$ a day with good traffic and the ability

to think smart... It all depends on many factors of course included 'Luck' and 'Imagination'.

I wish you all the good luck with your journey around here sir. ?

I just bought this method and would like to make a quick review about it!

The method has been there for a while, it is suitable for everyone but you have to make sure you're

smart enough to be able to manipulate others, but other than that the method is really good, he's very good at explaining it but it just seems too simple to be true, it could work for some, and it could not work for others. Just try your luck (:

Hope you all enjoy it! Just bought it and looking forward to using it.

What kind of Ewhoring method is this actually? We need more information about your method before we buy it. \$10 isn't much to invest, but still, it could be helping if we knew a little bit more about it. Seems legit right?

Cheers mate!

Crypto - January 18, 2017, 1:41 pm

I used to make quite a bit with Ewhoring myself, \$10 is a small investment for the knowledge you get from ewhoring in general.

zPowers - January 19, 2017, 1:50 am

just bought this ebook and lemme just say the wording and how he explains it is semi good, easy to understand but the method and technique wise, he doesn't explain that you basically got to think on your own so your kinda set up for failure so i would say this method is a 50/50 chance that you will make money. I haven't made anything yet and i don't think i am going to anytime soon but if you can figure out wat to do you may make about \$50-\$100 in a week maybe even 2 , not in a day and im just being 100...

Basically... if you can think creative you will make a lot off money. Everything is explained in detail so if you follow the steps you will be fine. You can't just use standard words or sentences with eWhoring cause there are hundreds of guys like you.

With every method you have to know what to say and when to say it, only with this method it's what to say and it's completely automatically, so yes of course. It depends on what you say.

If you have some questions regarding my method feel free to ask them to me so I can help you out a little bit. Thx for the review btw.
