Bought this Dork Generator from Crory a few hours ago. I had issues while using it. Crory helped me to sort out the Issues (it was a problem on my side). I can recommend this to everyone who owns a Account Shop, also the combo helper is pretty nice. Good job!

Vouch I bought the old one but never had the time to get to cracking again.

Yeah, I've used it a few times, not the best.

This is what I was afraid of, will the dorks be changed every so often?
