How to: Make free unlimited .edu emails

Update:

I found a new and easier and way faster method to use, so I thought id update my thread and include both of the guides for you, so if you have trouble with one, you have the other one as back up!

With theese two method you will learn:

1. How to make free and unlimited amounts of .edu emails - WORKS WORLDWIDE!
2. Which advantages, benefits, discounts and cool stuff you can get and do with .edu emails

1. Method . Personally Tested!

It is a fairly new method, and I have personally tested it. So i can say that it works, it takes a couple of minutes to do, but works!

Got it via skype from a friend, dunno who the author is, but credits to that guy! ?

2. Method. Also tested and works, but is slower.

Private Message me to get them both and a list of stuff to use the .edu mail for!

If I don't answer then you can ask questions here in thread, and then I will try to send it outo everone I see asking for it!

Considering this is what you're describing as a "fairly new method" I hope it isn't something I've

already seen released a dozen times on here.

I'd appreciate receiving this. Look forward to seeing if it's what I think it is or not.

I got some feedback for quite the amount of people who have never seen this method before.,

But you never now... all these ebooks and shit people sell for mad \$\$ to stupid people, all consist of already released information.. it sickens me to see methods which are known by many being sold as "private, my OWN guide" etc..

But gonna send out to the rest of yall who requested it from here on my thread!

Good day folks ?

Khamul - April 16, 2016, 8:47 am

Lol so this is the method I released last year then? I think the guy I sold resale rights to has abandoned it so if it is my guide then I guess this is OK.

Looks like this?:

It does look a bit like the same.

But if you did sell this and made money off of people, you are a fucking moronic dick.. Hustlin people like that.. Ive read about this method and that site plenty of other places... And you even hustled someone for resale rights on "your" method? hahahha the world of HF is a funny place.. Every ebook writing kid gets away with hustling 100s of people with their shitty rewrote public tutorials, just with some basic information collected and put together.. Ive seen so many leaked ebooks which were so shitty that I wondered how the fuck the person selling it convinced himself that people would buy his shit.. But fake earnings, or your friends earnings, and some good vouches from your friend saying youre legit makes you a boss here on this fucked up site..

But it might probably be "your" method yes..

DonD - February 10, 2017, 4:43 pm

Ive recieve alot of PMs lately.. But due to my old pc being down, i didnt have the download link or backed up files..

But now that my PC is up and running, I thought I might aswell update this thread with a new method so theres 2 methods now, but relive it aswell..

So if any of you would like the methods for free, nows the time :D
