Rajjhajj - April 10, 2016, 7:45 pm

Hey guys, I'm going to be bombing numbers for free. I can do almost every carrier. I can send up to 100 messages per 30 seconds. If you would like i can send a few messages to you first to verify that it works.

Rules:

No Posting numbers on this thread (will be reported)

Send me a message with the number.

Only one number per person. (regular members)

up to 3 numbers per a person (leets and ubers)

Make sure the person has unlimited texts on their plan (I don't want to make people pay for this)

Guys im still doing this pm me more numbers!
