Thread: [\\$1,000 bet with Black Shadow](#)

Cameron - April 11, 2016, 3:26 am

Black Shadow is so confident in his "No Lose" script that he bet me \$1,000 that he'd be ranked #1 in the world on <https://www.bustabit.com/leaderboard> in 6 months from now.

His current rank: 146 <https://www.bustabit.com/user/BlackShadow>

Proof: Spoiler [\(Click to View\)](#)

This thread is so we can track Black Shadows journey to success and I expect everyone to cheer him on every step of the way.

Deadline: 11th October.

Sw?er?ve - April 11, 2016, 3:28 am

Zoo - April 11, 2016, 3:45 am

So he'll need to have a gross profit of over 600 BTC?

Pittinger - April 11, 2016, 3:46 am

I think you just made yourself 1000\$, hah.

Will be interesting to see how this unfolds.

Nachfolger - April 11, 2016, 3:47 am

The reason he bet this is because in 6mo he will be ded.

You got scammed son.

Coton Pker - April 11, 2016, 3:49 am

theoretically if he just keeps running the script for 6 months he can actually pull it off.

if you think about it, it doesn't matter how much BTC he actually has, it only matters how much he plays.

he might waste a grand in overall loss trying to get #1, but it's possible to do it.

Good luck if you win give me like 500\$ as donation to the charity ok.

VRUMM - April 11, 2016, 4:06 am

It's pathetic you guys are picking on him. Let him sell his shit no point harassing him because he was false advertising. There are scammers on her in the CE section. The community shouldn't be fixated on harassing a seller with a proper product. If his customers have a problem with the product they will deal with it on their own.

Stop messing with him and let him handle his own business.

I can't.

minimalist - April 11, 2016, 5:36 am

tl;dr: Black Shadow isn't confident enough in the thing that he wasn't afraid to market as a "no-loss" script. If he were, he'd put in more money (\$500 bets!) to reach #1 and win the \$1000 bet, but he knows that it's not as good as he thinks.

Lil Vert Uzi - April 11, 2016, 5:50 am

It'd take years idiot, even 6 months is a difficult time frame.

Isn't the leaderboard based on gross profit, not real profit.

Himitsu - April 11, 2016, 6:21 am

Method to get rank one:

Bet 10 bitcoins, cash out at 1.50 everytime.

You win? Then bet 100000 bitcoins just to stay #1
