I am not the creator of this.

But I just found this tool so nice and awesome, and I use it regularly myself, so I felt like sharing it with you all on here!

You should go there and check out their League of Legends hacks section, they got some nice tools actually! Btw, I am in no way affiliate or any shit like that with the site, I just think some of you on here could use this!

[Make it Simple] League of Legends Zoomhack v3.2

[Video: <https://www.youtube.com/watch?v=C7wLt-GfdDw>] Video of it in action from the website. They show you how to use it on there and navigate around in the settings aswell. Download link down below.

Features: Zoomhack / Zoomlock (Set / lock your zoom range at custom value)

No Zoomlimit (Removes the Zoomlimit and allows infinite scrolling)

How to use:

Step 1 - You have to start up LoL and enter a match and then minimize out of LoL before starting the tool.

Step 2 - Open up [Make it Simple] League of Legends Zoomhack v3.2

Step 3 - enable the kind of Zoomhacking youd like.

(In the tool itself theres a tab called "How to use", go there if you are confused.
