FAQ:

Q: Where are picks posted at?

A: Picks are posted on our Twitter page (@BigBankPremium). If you do not have a Twitter you will need to make an account (no worries, it takes less than a minute!). Twitter is used because members will be notified via mobile or desktop whenever a new bet is posted!

Q: What is your win percentage?

A: Our community win percentage is sitting at a VERY respectable 63% right now!

Q: I've never bet on sports before, can I buy this service?

A: Of course! I will personally assist you on any questions you may have and there is a betting terms guide on the twitter to help you get started!

Q: Where do you bet at?

A: ALL picks will be available on either Bet365 or Cloudbet. Americans must use Cloudbet due to the fact that betting with USD is illegal in the states.

Q: Awesome! Where do I sign up?

A: You can either contact me via HF PM or add my skype! [jshield01](#)

Was in the 'market' section and saw my boy Time's thread and had to stop by and and say to anyone still on the fence on deciding to join his group is that you will make profits following his bets.

Synnx - May 2, 2016, 12:50 am

Hey, I saw Tim's thread on the premium section and decided to contact him. He didn't offer one week but he did it to me because hes really kind. We lost a few games in a row because I'm overall unlucky on everything I do lol. He then refunded me and now he gives me bets for free untill I earn back the money I lost. This is an honest review and the guy deserves the money he gets!! vouch!!

Just going to go ahead and answer this because this has been what I've been doing, yes you can. I use two sites primarily, cloudbet.com and <https://nitrogensports.eu>. Cloudbet has inconsistent withdrawals, some are instant and some take anywhere from 30 minutes to a day. But on the other hand nitrogensports.eu has basically instant deposits/withdrawals.

Mate, betting is not just on underdogs. Just because a team is a favorite does not mean they'll certainly win. If that were the case, we'd all be rich. ?

Vouch for Time, hes a really nice guy out of all the betting groups of HackForums I believe that James is the best.

It's gambling, sometimes you lose however james always seems to recover. I hesitated before if I should join his group or not because It's betting no one can guarantee 100% winrate right? James doesn't promise you 100% winrate but I personally promise you that you will earn back your money

and you will get profit if you are consistent on betting and if you listen to him.

Finally i got the time to give a simple review of my trial..

The 1st day when OP sent me the bets i was not around but it was a 3/3 wins, then OP was very nice & gave me another day to try out, the outcome was 5/6.

I must say that the hit rates are good but the only thing is the odds are kinda low sometimes, whereby u can only afford to lose 35% of your bets, anything more then that will be no profits & may result in a loss.

Best to use cloudbet to follow the bets, am currently using asia sportsbook so i will need to input BTC into cloudbet in order to follow the bets.

Will be joining after i get my cloudbet account ready..

My simple 2 cents of view :)

@Time

I am in another tipster group on here and they are doing OK. But I can't get on every bet due to time differences and what he bets on. He's posting bets at Midnight - 01.00 and that is difficult for me as I'm in UK and he's not and he is only giving around 1 hour to get bets placed. Also for me I can only use one bookies due to the bets he's placing.

So can you just explain your time zone, what time you notify us and how long you give people to put their bets on. Also what bookies do we need to use.

Thanks,
