Here's the iPhone Wallpaper and The 1920x1080 Desktop Wallpaper of the design I made. They are quite large so I put them in spoiler tags.

The quality is pretty bad, try saving it as a .png with high settings. However, it's a pretty cool design. GJ

Pretty neat design, as said above try saving it with higher settings, other than that, looks good.

I like it , Nice design .

Fu1li - May 31, 2016, 12:44 pm

Looks good, Higher settings and a but lower exposure maybe?

TwistedTyler - May 31, 2016, 11:50 pm

As Vegetable said, the quality is awful.

Looks kind of blurry but I like the design. The quality is the only thing that needs to improve in this picture.
