If you deem me trusted enough for a vouch copy hmu man

Well I received a vouch copy and all I can say iam surprised I haven't heard of this method before, you will be easily getting at least 30+ bots easily a day.

The best part is that that the method is Autopilot so all you have to do is just watch the slaves rolling in another thing they are not Indians slaves.

You got my vouch man :)

Vouch for KoopaWert, I received a copy of this eBook for review and even though I don't know alot about RAT's I know that this is a solid explanation.

Please be aware that this is mainly a guide of where to buy the ingredients and where to execute them.

GLWS

? rooq?e ? - April 27, 2016, 4:04 am

KoopaWert gave me a vouch copy, let me give you an honest review.

It begins with a short introduction and then gets straight into the point. No time wasted, it's very straight forward and easy to follow. You do need some tools before you start, but he show you to the right direction, both free and premium versions.

It took me just about 5 minutes or more to read, all resources you need are there and you're not left confused on what to do. It's well worth the asking price on this method.

GLWS and thanks! ?

Narcist - May 15, 2016, 2:35 pm

I paid 7\$ for this. Its simple method but did not come up in my thoughts and is definitely able to bring you classy clients.

Worth the money..? Yes, if you are looking for unique spreading method.

I might buy this but let me ask you one question. Does it involve using a website? Like your other spreading tutorial.
