Thread: [RAT "Expert" needed](#)

Black.Hawk - April 14, 2016, 6:49 am

Hello, I don't know if this is the right place to post this but I figured since this is related to remote administration tools. I need a RAT expert, or someone who has a lot of experience with RATs. I have to complete a research paper for my English 101 paper. The papers topic is on Remote Administration Tools. I have to "interview" someone. I will PM you and ask you a couple of questions. These questions will not ask you any personal info about yourself or help setting a RAT up. These questions will be related to the topic of RATs. I may ask some questions of personal work you have done , but feel free to leave any questions unanswered. I understand!

I will not mention this website nor while I remotely give a clue

I will change your alias (HF username) , unless you want me to use it.

The only experience I have with RATs is Babylon. But I think it's time for me to upgrade to a paid RAT, but that's separate topic lol.

So if you're interested please PM me. I would go around asking and PM HQ users but I don't want to waste their time with me trying to explain my essay. I don't want to waste their time. I know a lot of them have business matters on HF they rather deal with.

Neos07 - April 14, 2016, 6:51 am

I've sent you a pm regarding this.

Thomaz000 - April 14, 2016, 6:52 am

I am an expert in the teamviewer remote administration tool. HMU if you need to interview me on that.

Otherwise there are guys on here that are expert with other paid RAT's, so I hope you will find.

Peace
