Thread: [SOLD \[C#\] CS:GO External Cheat Source - Start your own CS:GO hack!](#)

debug - April 14, 2016, 7:37 pm

I've decided to sell my CS:GO cheat source. It was a side project for a while that I initially planned to sell, but I honestly don't like CS:GO enough to want to run the project.

Features:

- BunnyHop
- Triggerbot
- Aimbot (Currently coded as aim assist, ie. low FOV) w/ BSP parsing.
- Recoil Control System
- Easy-to-use Menu
- Very well coded. Very easy to modify and add more features.

Showcase:

Pricing:

I will be only be selling 3 copies. Paypal(trusted members) or bitcoin only.

1st Copy - \$100

2nd Copy - \$125

3rd Copy - \$150BTC only

PM me to buy.

Few Notes:

- It was intended to be used for legit play.
- It has authentication system built in with it, if you want that just tell me when you purchase. (Not complete though.)
- I will provide no support. So don't buy if you can't code, or are incapable or hiring a coder.
- I've been using this/a variant of this source for over a year now with no VAC/Overwatch/Untrusted bans.
- It was originally created to be secure, and remotely obfuscated weekly to prevent detections.

If you have any questions just post here or send me a PM.

Lovely made source, wouldn't hesitate to purchase.

Debug is an excellent coder :P

It looks like that cheat was made in 3 mins, and you're selling the source for \$100. Neat.

It's very rare to find people that'll actually buy this if you sell 3 slots perhaps sell it to one guy for \$200 or so?

just an idea

just an ideal would consider a one copy buyout option. If you're interested in this, PM me.

First copy sold. Next copy will be \$125, and the last \$150 btc only.

Slippin' Jimmy - June 1, 2016, 5:45 pm

I purchased the first copy of the source code for personal use and some fun experimenting. I will update this with a review soon.

debug - June 2, 2016, 12:04 pm

2 Copies left for sale! Willing to take 10% off if paid in bitcoin.

BoliBerrys - June 2, 2016, 12:36 pm

Looks pretty amazing! Great Job!

Although im poor af so im not able to buy it

But asides from that, looks pretty sweet

debug - June 4, 2016, 11:13 am

Last two copies sold. Closing thread.
