wouldn't it make more sense to first improve your skills to a decent level and then go ask money for it?

I mean you should first be satisfied with your own design and then go and create other people's facesm work on the shadow and the color compression, cause it looks like a paint spray brush, also the all white logo looks kinda messy, work on the proportions as well.

Design complete! Kornesas does wonderful work. I had a thread design commissioned, and it turned out wonderfully. All my requests were met, and it looks very professional as I had hoped. Payment issues had arisen and Kornesas was gracious enough to allow me to make payment after the completion of the work as an exception to his normal payment procedures, and for that I am very grateful. What a wonderful experience for a first time customer! Thank you for the work you have done.

MrJamieMcC - August 30, 2016, 5:32 pm

Hi. My name is Jamie and i am currently developing a game. Have a look at my HF thread

<https://hackforums.net/showthread.php?tid=5298076>

The game i am making is a bar simulator in which the player is the barman/waiter and has to pour drinks/deliver food/ clean etc etc. I am making a Kickstarter to help fund my game but im not amazing at Photoshop or GFX. I can do some basic stuff, nothing special.

I am looking for a banner/wallpaper/game teaser screen in which i can use to show off my game as i dont have enough of a game to make a trailer to show off my current work. Would you be able to help?

Ideally i would like the banner to have the title of the game which is "Ye Old Bar Simulator" as well as possibly having a drunk person and some bottles laying around. Having it in 1920x1080p would be great.

If you are able to help me then i will include your name in the game credits as well as reward you in

what ever way i can. As well as the payment for this service.

Thank you,

Jamie

Review:

Kronis was very patient with my order, and made sure that he completed the order within the time frame I gave him. He even sacrificed some of his sleep to make sure the order was complete.

He produces high quality work, and if you are not satisfy, he will continue working on it until you are.

I would definitely recommend him to anyone looking to getting some graphic work done, and I will definitely be coming back to him for more of his services.

I placed an order. lets see how it goes.

RoRo. - September 19, 2017, 6:36 am

My order is done. OP having some trouble with english im guessing as alot of factors got neglected. Paid 70\$ for a simple design and a basic font when i actually wanted it handwritten. But he did a good job on one of the things i asked for. Def would recommend for simpler designs where not to much explaining needs done in terms of the language barrier.

Constantine_XII - September 19, 2017, 1:26 pm

I bought my thread design for \$25. Same day delivery, very good service.

My only complaint is that the guy uses way too many smiley faces in his skype messages. Its offsetting as fuck.

What do you have to be so happy about small man?

Which is what I did, and Im glad I did because the design that Kornis created for me is amazing and stunning, never had such a thread design before and im very happy with my purchase, not even did he make it absolutely gorgeous, he even did it within a couple of hours of my order date.

He consisently finishes work on time, provides creative and unique designs to tailor for different individuals, and ultimately is very friendly and cheap in comparison to competitors.

Huge vouch for Kornis, I was really excited to work with him the moment I saw his portfolio. He's a master at what he does, and there's so doubt that what he does is nothing more but professional and flawless. I'd highly recommend him to anyone looking for a logo or anything involving graphic designs.

Shamba11a - December 3, 2018, 6:18 am

Kornis finally finished the logo with a handful of mockups. Damn it looks good.
I mean it's simple, but that's not what I paid for. I paid for his creativity and delivery.

I'm super satisfied and I will return for other projects. Thanks!

Made an order on the 24th December(Monday), there was multiple delays.

When asked for updates on 27th December(Thursday), he told me "will show today" but actual review was only shown on Sunday(30th December). To be fair, it could have simply been because it is end of year time where Christmas and New year is round the corner but I wasn't updated.

Eventually I was shown a preview that was not completed yet, I did feedback that it looks extremely "clip-arty". We agree on \$80 USD, I paid half before he started on the poster. After I was shown the preview, I told him to stop work & keep the \$40.

This was what I was given, do take note this is not the final product but looking at where it was going I decided to stop work

This was what he advertised in this thread

<https://hackforums.net/showthread.php?tid=5238352&pid=50573859#pid50573859>

I understand and agree that art/design is extremely subjective that was why I didn't ask for a refund at all.

You guys can be the judge. ?

Have just ordered a thread design. Seller seems very HQ, his work looked phenomenal, and offered me great deal to essentially decide how much I want to pay (within a range) when he sends me the final work. Am excited, thus far the experience has been phenomenal!

Big bold vouch for Kornis!

My thread design absolutely blew me away. It far surpassed all expectations.

Kornis understands that a design represents a business, and really went the extra mile for me. I laid out very specific instructions for Kornis, and he fulfilled all of them.

Seller offered me a very, very fair deal where I essentially decided how much I paid him once I saw the design. I ended up paying full price out of choice due to his professional work and friendly manner.

Timely, HQ, and a fun guy to talk to. I WILL be back! Thank you.

1. My service -my price, if its expensive go somewhere else.

2. I download one vector and i didn't said that i did this from scrathes. (Other designers taking

vectors also, to improve thread, i'm guaranteed 100%).
